Blount Springs August 15th/44

Mr R. G. Hazard

Dear Sir

In my last communication to you I gave you to understand that it would soon be followed by one detailing the respective heights and sizes around the waist of such of my servants as I wished to have Pea Jackets made for. I have just obtained the measures and hasten to furnish you with them. The first column of figures represent their respective heights in feet and inches & the second column their sizes around the waist in inches. You may find several of the same height - yet if you will observe there is in most every instance a slight variation in the measurement around the waist. You will however find several of the same height and size. I wish you to get them up as early as practicable and ship the first lot to me in Mobile to the Care of Smith McKoff & Nicoll.

53 Pea Jackets for R. G. Smith

Jno McKoff
Smith

In the first lot of 53 you will find many very small or boys sizes. upon which your price ought to be in proportion. This however I shall be compelled to have entirely with your own generosity & discretion. The measures of the first lot of 53. were closely taken or in other words rather too long for working comfort.

The second lot (20) are for Mrs. C. A. Hall my sister in Law. I wish you to make them up just as you do mine of the same material and put them in a box to themselves with her name upon it and direct it to the care of Smith Wyckoff & Nicoll. Mobile

You will please ship both lots at the earliest moment possible and oblige your Obdt Servant
