Jackson March 30 1848

Dear Sir,

The Sale of John Methvin's property closed on last Saturday. Which owing to the large amount of Goods in the country were not as good as could have been wished. I entertain serious doubts that there will not be much left after the demands against the estate are settled. At the sale I purchased the watch and trunk of clothes which amounted to one hundred twelve dollars 50/100. This I done in compliance with your request expressed in a letter to Mr Bayard. These articles I shall keep until I can hear from you which I wish to be as soon as

By the same opportunity I wrote to your Brother Eppe advising him of what has been done. This letter will be sent by private conveyance into Georg and then put into the mail.

Be no longer uneasy about your Brothers property — his Will shall be complyed with as near as possible

John C Cough
