Dear Sir:

Yours of the 2nd to hand.

I thought that Papa had written you fully about the deal.

You can tell Mr Sibley the only way we can make a deal with him is a straight sale we may be able to fix some terms O.K. but can not accept it of his other proposition. We can figure the price down pretty close for him.

We very sorry your letters have not had better attention & will certainly see in the future that they are answered promptly.

Yours friend very truly
