Mr. N. Joel Barnett
Montgomery

My dear Mr Barnett.

You must permit me to express to you the appreciation I have of your attentions to me during my sad visit to Montgomery. There was not an incident in Montgomery to which I can turn but meant sympathy & kindness to an afflicted father — and the Montgomery will always be associated with the death of my beloved son, to the generous and kindly treatment I met from one and all —

Doctors, nurses, the noble women in charge of St Margaret's Hospital, Dr. Edmonds, and I want also to mention Mr Pollard who I know is a splendid gentleman — as well as Mr Jones who was so sympathetic — and no one exhibited more genuine sympathy for a stranger in distress — than your good self, for one & all I have the most grateful feelings.

Believe me with kindest regards

Your Obedient Servant
