Nevada Feb 12th 1873

Dear Friend

Yours of the 27th only reached me to day, with this you have the authority wanted,

The Sale of the Boundary monies is entirely satisfactory to all here, but how is it that the profit is so small, the outlay must be much beyond any former calculation to have it pay so little and larger than the last Building Sheet shows, I thought not over $200 at had been invested, we all consent to your keeping the Brick Bank and Coal mines as you desire,

The Government has made a good purchase and I for one am content believing, that the understanding has resulted for the benefit and good of the Country,

I hope you will be able close up the business at once and come down,

I am much required to learn of your future movements. hope from them much good, though I shall greatly regret your absence. I am very anxious to see you,

Yours very truly
Chas Walsh

Genl Mr Rae
