Mobile
Evening – 10th June

My Dear Wife,

I wrote you a hurried letter this morning but having met with Watson going up to night I write a few lines by him — A boat came over to day from N. Orleans (The Alabama) to take us to Pt Isabel. We now expect to get off on tomorrow night or the next day. In this I may be mistaken — All the movements of the government seem to be slow & uncertain I think it has disgraced itself. One day we are recd for 6 Mos, another we are told we are not to move until we consent to go for 12 — There is great dissatisfaction here —

I have so much to do that I hardly have time to write a line or do any thing else — I will send by Watson some few toys for my sweet boys — Among the rest a flag for little Al — God bless them both — Send me yr likeness — If I go before it gets here it may easi

ly be sent to Pt Isabell — Oh I'd
prize it so highly — Don't fail! my love —

Farewell
