Dear Sir;

In response to your suggestion that Ala's State Teachers College be Closed is one of the most Idiotic and Absurd Statements of the year, now mr. Commissioner tell me what is it you people want? you are fighting tooth and nail against Civil-rights, you are doing the same against Intergration, you Don't want the negro people to vote, you Don't want your lilly white Kids to go to school with negroes and you Don't want negroes to sit Down and eat at your lunch counters, Well mr. Commissioner let me remind you of something, you Didn't want your lilly white transportation intergated either But what happen? (score one) Now you want to Closed the negroes school Because in your warp and twisted mind the negroes are getting to smart, which all the time all they are doing is trying to be treated like American ~~Citizens~~ Citizens, Well I'll tell you what, why Don't the white Citizen Council sell montgomery like they did everything else and then you won't be bother

with the negroes, you and your white Citizens Council might as well set your people up for what's coming, you are going to take these things whether you like them or not.

The negro has seen the light you can't push this younger Generation around like you have been doing in past years they are fighting back, you can slap them down on one corner and they will spring up on another, Hence-forth I hope you will think these things out before you open your big mouth, Violence want get you nothing Because some of you might be included.
