Hartsville Augst 19/61

I Wm Garrott Esqr

Dr Sir

Yours of a few days since was duly rec'd asking my assistance in procuring Rifles & Double Bl shot Guns to arm the Regmt you are raising — any assistance I can give will be with pleasure —

I have enquired around & find some Rifles that I could get — but from what Dr Bradley said in regard to the size you would want they are too small to answer your purpose — I learn you wish a large Barrell with good substance, so you may have them all brought to one size & then Doctor thought it would require one an inch a crop the Bl — I find but few that is over 3/4 of an inch — & rather light substance at that — wier they answer.

Resply
