Town Creek Bridge July 28 - 1/62

Mr Isaac Winston

Dr Sir.

From difficulties which have occured at Courtland today many of the Cavalry of that Place are nowhere destitute of rations without any means of supplying the same at this time. You know the difficulty of procuring supplies with consent of owners. therefore any damage done your propperty shall be promptly receipted for on being presented. the disturbed condition of the country around rendering forraging at a distance from Camp both tedius & laborious.

Yours Respectfully &c.
