Governor of Alabama
Executive Office

Dear Sir;

In the behalf of good judgement, for your State and the whole United States, I ask you to consider the commutative of the sentences of the eight Negroes, confered at Scottville the 4th.

While thier trial and conviction, without mob violence, is a great plume in the cap of Alabama towards justice and modern progress, the victory would be complete with a more justiful sentence.

I'm a Northern Negro, 24 yrs. of age. Although never having been over the line, I've always been able to see and reason with the Southern point of view.

And to prove that all the above isn't so much trash, because I'm in the security of Illinois, I volunteer, with expenses paid, and the proper authority, even at the risk violence towards myself, to come to Alabama, and plead thier case for life-imprisonment, if possible.

Yours truly,
Frank H. Spaulding
