Tuskaloosa Cty A. April 15th 1835

Dear Sir I have the happernys to inform you that myself and family are in common health and am in hopes the reception of this may find you and family in good health — I have waited a long time with great hopes of giting a letter almost every mail from you but I am still waiting — and as such I have written this note with some hopes of giting an Answer from you I am ancious to hear how the family and relations are doing generally — and If you have made a Visett to the nation I would like to hear your opinions in relation to the Countrey and how the lands are selling and If the sails will come on this summer or faul of the land that is not taken by reservations — I am still in hopes that I may have it my power to Visett that countrey after my crop is lade brey — we have had so much cole, [illegible]ott weather from the time of that cole spell commenceing [illegible] A few weaks back it has been dry be the cole that crops are generally backward and are likely to be so — last night the rain commenced again and have the appearance of a high tide if it does not stop ~~the~~ raineng I have my corn all planted except some new ground that I am in hopes to git it in — I am in hopes I shall git in 10 or 12 acres of new ground I commenced yesterday to plant cotton but are stop with the rain today — when we can make a finish of the cotton I cant say as a part of the land is new ~~[illegible]~~ it will much depend on health

and Good weather — I have had as hard a time this year So fare as I have had for many years back owing to my highiring I im out again this year — I enter'd Andrew to the Simanary which was $40-00 he went 5 or 6 weeks and his Eye faild him So he had to Quit and I am afraid for him to work for fear it may indainger his eye — he has been in hopes he would Git a birth in a Store but have not done So as yet I have Sent Sally to Mrs Walsh Just above Halberts which has Cost me $40 for the Sesshion Say 5 months board and tuition which I think is lowe for over Country She has $40 in advance or $45-00 at the end of the Sesshion She is well Quallified to teach girls Some of the Children was Saying that you had wish to Send your daughter Sarah to Mrs Walsh If your Circumstance would admitt you to Send her it would be money well Spent provided Sarah is ancious to learn and If She is not ancious to learn it would be better to Spend the money in Some other way the reason we Sent Sally was She didnot incline to Studdy at home and we thought perhaps Mrs Walsh Could traine her to Studdy better than going from home and there Seem'd to be no Chance to Git a good teacher in over neighbour=hood If you Saw proper to Send Sarah you could wright to her — and direck your note to Holberts post office the Say in their advertisement that the take no Children for less time than one Sesshion but I am of the Openion that would take for a less time If you Could Git to Send by the month and leave to Quit at the end of any moth you Could let Sarah have the money to pay at the end of the month or make a Contract

to refund the mony provided She dednot Go a Sesshion
Sally would be proud Sarah Could go to School with her
there is one thing that would help Sarah out I was up there
last Saterday night and Sally said out of 17 there was but 3 or 4 girls
that was fare advanced which Seems to incurge one who is
not fare advanced I learn at over Court that your Son William
have moved from the western district near old Pickins in
Pickins Cty I have received nothing from him as yet old Mr
Hooper told me he Said he was a going to Come over Some
time this Summer to Seeme — I persume you have looked on
the movements of the good union men in Congress who wished
3 million of dollars under the direction of the President I think If
the Steddy part of the union men does not begin to reflect and
look around at the routs that the leaders of the union me have
taken them and pause and reflect for thierselves what will be=
=come of over Country it Seems to me that the people have
been led So fare by the name of the union that the leaders
of their party has got to think the Can Sett up any Claime the
please and all the have to do is to Cover it up with the union
and Genl Jackson I See Genl Jackson will have Some trouble
in relation to Judge white I am in hopes that Judge may
Succeed for this reason from White, Common Carrector we have
reason to hope that he would respect both partys and make
peace in over Country again which all partys aught to
be Glad to See If it is not done we Stand in a most awfull
Situation as a nation you will be Kind anuff to give my
best wishes to all the relations I have written to Washington
Several times and he Seems to fail in answering weather it
is from his missfortunes or politicks I Cant Say but am in hopes
he Cant have any Coolnyss on that Score as I am Certain that
he would be as willing to oppose a oppressive law as I would

and perhaps more so I would like to know weather Mozley is gorn home yet or not I have received no letter from Sister nor Terrell since last faul I heard from Osburns in Fibury through Mavericks letter the were all well at that time Robert Warren and family were all well a few weeks ago information by letter to Wm Minter the family Joines me in offering to you & family & relation generally over best wishes this from your most obt Servt
