Senator Bankhead

Washington D.C.

Dear Senator Bankhead:

This is merely to say that I sincerely hope you will find it possible to support the President's idea of selective service, in the main at least. I confess I should be glad however to see Mr. Roosevelt get his division for early service in France. The last two summers I have spent in Canada, and what I saw there disgusted me forever with the voluntary system.

I realize that you have much correspondence to attend to, and do not therefore expect an acknowledgment of this letter.

Yours very sincerely

Stewart J. Lloyd
