My dear Laura:

Well, I wish Palmer could have been there yesterday. I don't see why in the world he didn't put you on the radio and television so you could have helped us when we elected that great Judge Walter Gaillard and all the rest of them. I thought your introduction of our senior senator, Senator Lister Hill, was out of this world. How I wish Palmer could have heard it! Well, Palmer's always been an orator himself and a great teacher, and he sure has taught you a lot, but maybe you were just born with it, because I saw your fabulous father and your marvelous mother there and how happy they were when they saw you standing there introducing the senior senator of Alabama who has done so much in the work for the Hill-Burton Hospitals and has done so much for all mankind, but you've done your part, too.

Give Palmer and all your family all our love, and the same goes for you and all of our many mutual friends, now and forever,

Devotedly, your friends,

Ocillo and Frank W. Boykin
