APR - 6 1965

GOVERNOR'S OFFICE

Honorable Gov. George Wallace
State Capitol
Montgomery, Ala.

Dear Sir;

I have read about THE ALABAMA LEGISLATIVE COMMISSION TO PERSERVE THE PEACE but do not have any material as to the organization and power of this committee. Any and all available information will certainly be appreciated about it.

Also any reprints of pictures of the Selma March to expose the filth that was in the public eye will be useful.

I am a candidate for the House of Representatives from the 125th district of Georgia and if I am successful in winning I shall place a bill before the house to set up or form a committee as you have in Alabama.

What can we do here in Georgia, to help you in your struggle for Americanism also against Kings threatned boycott.

Yours for GOD and Country

Calvin F. Craig

Atlanta, Georgia

Dear Mr. Craig:

Your letter to Governor Wallace was referred to our Commission.

We are sending you a copy of the resolution by which this Commission was created. We are financed from the General Fund by direct appropriation. We have been in existence only two years now and are still feeling our way along. There was much opposition from many sources in the beginning (we were called a witch hunt committee) but we feel that we have done a good job. We do not seek any publicity and our job is to report to the legislature who takes any action they deem suitable.

If we can help you in any other way please call on us.

Sincerely,

Mavis S. Hicks
Secretary
