

Mr S. St Bent

Cuscuta June 25 1861

Dear Sir

I am happy to inform you that Anna had a fine boy last night he was born 5 minutes after 10.0. Clock and they are both doing well. Doct Baker said he was as large as his mother. he is very large child and a half hour after he was born he was looking around him with his fist in his mouth. Anna says that you must come as soon as you can get off.

Carry and the children nearly has a fit over him

I found the Telegraph wire was down in half dozen places between this and Howards and from the ~~wards~~ that we have had for two days. I expect that you will get this before you could get a despatch. we have had fine rains about here and. it will make most of the corn. they have extended around the country we are all well. I have no news that can be relied upon

Wiley came from N.Y he says they say that they are going to pull up every Cotton stalk from the Potomac to Texas. they have done much yet. only by talk.

Yours Respectfully
Edw. T. Young
