Dear Sir Yours in reply to mine notifying you that my friends desired me to canvass the county by public discussion and asking an interview with you that we might consult as to the time and conditions of the debate has been received, I regret that you have after my friendly note and offer of an interview proceeded to make the appointments without reference to my wishes or convenience. You have not stated the terms of the debate.

I make this proposition - One of us shall open with the privilege of speaking one hour and a half, to be followed by the other occupying like time. He who opens then to follow in a half hours speech with a rejoinder of the same time alternating ~~as~~ as to opening and closing through the list.

Respectfully Yours,

Holling Hall
