Dear Father

I have not answered your letter sooner as I expected to see you here soon. I fear I am doomed to disappointment - I think a change of scene and climate certainly would benefit your health much. The cars run to Fairfax Station just a mile and a half nearly north of our camp ground.

We have had moving times since I came back to camp - we moved from Union Mills the very day after I joined my company came direct here and ~~struck~~<sup>raised</sup> our tents.

The first three days it continued to rain day and night - we thought it never would stop and began to be very uncomfortable indeed. - you can imagine the condition & feeling of those who were unfortunate enough to be on guard such days and nights. Our men however are now trained to perform their duty in day and night in storm as in sunshine.

Thursday Evening Col Seibels drilled us near  
4 hours - on dismissing us he informed us  
that ~~in~~ on acct of our splendid perform-  
ance our drill next evening would not be  
so severe - sure enough next it was -  
not so severe. We were ordered to hold  
ourselves in readiness to march to Fairburn  
C. H. at a moments warning.

The enemys approach was rumored - our  
arms and ammunition were inspected.  
There was however no undue excitement.  
We have lived long enough too near the  
enemys country for that.

This gives you an idea though that as  
soldiers we do not suffer from monot-  
ony and inactivity. This mode of life  
I think is not often productive of reb-  
ellion among soldiers. Our Regiment has but  
few if any disorganizing spirits, all are  
contented as well as we can expect.

Col S. - spoke in highest terms of our last  
Regimental drill and Lieut. Kirkpatrick  
praised our 1st company drill - both  
were excellent - This is owing in part to  
our good drill ground which we have

never had before - our life now is almost  
as before the battle of Manassas - we no  
more we are contented and preparing  
such conveniences as are possible - the  
next we march to another place.

In our march our duties are less severe  
we have no picket guard - in consequence  
we are on quarter ground less often.

I believe now the war will continue  
till the North has lost control of money  
and men - their hatred is too great -  
this added to the immense interest they  
have in preserving the "whole Union" will  
give them a seeming patriotism which  
require of us many hard fought ~~fight~~  
battles. I have read Russell's letter to the  
London Times - don't think we will be  
recognized yet - McClellan's victory if  
as stated in his official dispatch to  
Pres Davis and successfully followed  
up by him self & Hudon or anticipated  
will be of immense cheer to us all  
I think the Walden Reg is destined to be  
in our engagement at least.

All our mess and Outangya boys are doing well - working harmoniously together.

I have met several acquaintances in the war - some in the 4<sup>th</sup> Ala & some in the 5<sup>th</sup>. All my class ~~are~~ are Juska loosa I hear are privates in ranks our first honor man called on me yesterday - he is private in 5<sup>th</sup> Ala.

Bollings first honor man is also private too. I shall have to conclude now for supper - Mrs MCK has come back to camp yesterday - so did Al Jackson and Goro who have staying with a widow about 2 miles from here - Pat Steele is unwell - says he never would have gotten well had he remained there.

The baby kept such a crying and the old woman such baby talking that he was in misery all the time - he has not gotten such things he says as long since he has seen me - Ino and Bolling are well also Bolling Hall - Write soon if you conclude not to come on.
