My dear father

As I'm under
word of my company goes home
tomorrow on furlough I will
send you a short letter by
him. I went over to see
Frank Rivers today & found
him still dangerously ill.
Of the other letter in which
I told you of his unpropit-
ious so straight I wish

doubtful whether he will
fit well. I don't would
not let us write sooner
to his father saying that
it would do no good &
would only result in giving
unnecessary. In fact he
has not yet consented
that I should write to
him but I thought it
best that he should
know. Johnny is still
with him & does all
that can be done in
the character of a nurse.
We are all expecting

company & a few others
left today on picket guard
some three miles from here.

C. G. & self in fine health.
I suppose you know
Lt Col Baker & Maj. Jordan
were both resigned the
former on account of bad
health the latter of
misfortunes in his
family. Gen Abercrom-
bie has been well but
his imprudence has brought
him down again & he
has gone back in the
country to get well.

Tell his I received her letter
but don't understand
some of her allusions.

I am sorry for ~~Tom~~
It must be disheartening
to him to be sick so soon
However when he gets good
health I think he will
stand it better. Jim seems
to get along well with his
company & I was glad to
hear this for a servants
are generally very unpopular.
I do hope your health
will improve this winter
& don't doubt it if you
will go regularly to the sea-
