My dear Father,

I shall give you a short note as I promised to let you know how we are - Chesham is slowly improving & thinks he is a little better than when you were here.

Do not think he will be able to go home in the ten days. Doubt whether I can travel there.

One of the ligatures in my leg came out day before yesterday - The others hold on as tight as ever - I think I have improved some since I got here.

Gilbert is disposed to carry out your instructions to the letter about the brandy - the roseal would only let me have one drink yesterday &

The day before -

I'm like this place at  
which we are staying very  
much -

I hear nothing of John but  
would not be surprised if he  
was in some of the fights at  
Petersburg as Bushrod Johnson's  
Division is mentioned in this  
morning papers as being there.

Love to Lenna & the others.

I shall send this to Maj  
Brewer to get it to you -

Hope you will get home  
safe & find all there well -

Yrs so
