

YOUR LAST CHANCE

TO BUY KOKOMO TIRES AND TUBES AT HALF PRICE

DON'T LET GOOD HONEST-TO-GOODNESS MONEY SLIP THROUGH YOUR HANDS

ONLY ONE MORE WEEK

It Will Pay You
Mr. Car Owner

To buy these tires and store them yourself, even though you don't want them today. The time is coming when you will want them and you are not going to be able to buy them at such prices as we are offering you now.

HALF PRICE

Of This Great Tire and Tube Sale and Pizitz Guarantees Each One Sold

Yes, this is your last chance of buying tires of this sort at half price. This sale will only last one week. And, starting tomorrow, we are going to sell every tire we have in this entire stock by Saturday night; and when Saturday night comes this sale will end. If you haven't bought in the meantime, it is going to be your hard luck, because we can positively tell you that you are missing the greatest opportunity of saving money on high-class tires that you have ever had in your life, or that you will ever have again. You needn't think that these tires are going to be cheaper—they are not; and after this week they will be taken off sale at this price. The automobile owner is certainly standing in his own light when he doesn't buy tires like the "Kokomo Long Life," when he can get them at half price. Remember, now we give you fair warning for one week more this sale will be on at half the list price. No prices have been inflated. Take the list and take off half the price and then you have the price we are going to charge you for these tires.

SOME MONEY SAVING

One Hundred and Thirty Dollars and Seventy Cents Saved to Car Owner Using Large Tires.

Think of saving a hundred and thirty dollars and seventy cents. This is how you do it: If you own a car that uses large tires, tires 35x5, a full set of these would cost you two hundred and sixty-one dollars and forty cents, regular price—but, during this sale, you buy them for a hundred and thirty dollars and seventy cents—thereby making a saving of a hundred and thirty dollars and seventy cents. It is worth while, don't you think, to make this saving? You are sure to use them, so why not save all the money you can?

Cord Tires Non-Skid
