Ensley, Alabama, March 15, 1931,

To Hon. B. M. Miller,
Governor State of Alabama,
Montgomery, Alabama.

Dear Sir:

We the undersigned being citizens and tax payers of Jefferson County, Alabama, employed by the T. C. I. & R. R. Co. Ensley, have followed with much interest the trial of the eight criminals who having been convicted of criminal assault at Scottsboro, Alabama, and are now in Jefferson County jail awaiting removal to the State Prison for execution.

We are mindful of the fact that much of the States money has been spent in affording a safe and fair trial and being aware also that more money must be spent before their execution shall be complete, we wish to offer our service cost free for this particular execution to act in place of anyone who otherwise may be designated and who in return would collect large fees which we consider unreasonable when we would be performing a duty to the State gratis.

As to qualifications we are both electricians and electric operators.

Trusting you will consider our request and hoping to receive a favorable reply, we are,

Yours very truly,

23 Geo. T. Walter.
Mack Aelkin
