

The Barnes School

Montgomery, Ala.

To Our Patrons:

The influenza caused us to lose eighteen school days. These have all been made up. This was accomplished by teaching on Saturdays and on some other days usually taken as holidays.

By diligence and wise direction, the classes have advanced as far and as thoroughly as usual. In fact, some classes are actually ahead of the sessional schedule. They give evidence, too, of being well taught.

Your co-operation in all this has been gratifying to us. Please accept our thanks.

Sincerely,

Feb. 17, 1919.

E. R. BARNES, Principal.
