My Darling Annie

I should have written to you
yesterday, but did not do it. Our Sunday
mail does not often go out and therefore
I did not write. I received your
letter by Dr Black, and what do you
think Darling - a day or so ago I received
two of your letters written the last
of May. They were found by a gentleman
advertised at the P. O. in Pensacola
You know that was about the time
when your letters failed to get here
and I felt so uneasy. It is not singular
how they stopped there when all or
very near all the others came through
Dearest you have no idea of how warm
how very warm it is here now. I
am now sitting with coat off - no
vest or collar on, and I am very
pleasantly warm. From early in
the morning until ten o'clock is
the warmest part of the day - after
that time we generally have some
breeze. But last night it was very

warm - very little if any breeze. I went
to the beach and bathed. It cooled
me off some and I went to sleep.
But this morning it is equally warm
and sultry. In regard to going home
Darling I hope I will be able to get
off. There are more absentees from
the 1st Regt now than has been since
it came here. I hope most of
them will return before I apply. I know
if I were to apply now that it would
prejudice my application very much, so
may being absent. Well Dearest you
must not have your expectations too
high. You might be disappointed
You know I will see you if I can
and that I will leave no effort
untried to see you. You ought Dar-
ling to see our camp. Tents from
one hundred and fifty to two hundred
all covered over with brush harbors
and various devices to keep out the
sun. The men about in groups
or engaged in cleaning up their grounds
or arranging their tents. Take it all
together it is quite a picturesque
scene. We are a fine mark for Pickens
if it should take a notion to throw

some shells amongst us - They have
been changing their sand bags since
we came here, and I expect they are
preparing to move their guns so as
to bear upon us. What a scattering
there would be if 'Brown' should turn
loose on us - half a dozen shells ~~would~~
would do the thing completely -
Well Darling it is nearly 10 o'clock and I
must close and go and hear Bro McNair
preach - I wish it was Mr Cotton.
That will be another great pleasure
in visiting home to hear some of
his fine sermons - Oh Darling it
is so warm - I believe it is more
disagreeable than I have ever felt
it here - Well I have found out
that there will be no preaching, and
therefore I will go ahead and finish
my letter - So you received the
\$100. did you - well I don't know
when you will receive any more
so you had better take good care
of it - The breeze has been
blowing for some time and now
it is quite pleasant in the
shade, but still very warm in
the sun - Oh; you little father

talking that way to Capt Baker.
Well I expect you will not think
that way long, at least after you
see me for I am burned pretty
tolerably black, both hands and face
and by the time I get home will
be blacker than ever - Jim
McNab took it into his head last
night that he was Field officer
of the Day - and after visiting some
of the guard himself - sent Tom
Braunon to represent him - The
result was both were arrested
this morning - Braunon in con-
sideration of his ignorance and inex-
perience has been discharged
McNab is still under arrest. He
is nearly dead from drinking -
Clark was detailed and being
absent McNab without any orders
undertook and really thought he
had to supply his place - Joe
Butt and the entire crew have
been ordered off the ship - Their
places being supplied by Lem
Raney and twelve masses - Joe
hated to go back to his company -
well wishing good by - Give my
love to all the family - Take
good care of yourself - You little
Pet you - many kisses of love
from your old dear
Hubert

Darling - Please hand the enclosed memorandum to Capt Baker or Lt F Johnston.
