SUPERIOR COTTON GINS,

MANUFACTURED BY

DANIEL PRATT,

PRATTVILLE, AUTAUGA COUNTY, ALABAMA.

The undersigned has been engaged in manufacturing COTTON GINS about *twenty-five years*, and in that time has made and sold about *ten thousand Stands*. Added to his long experience in the business, he has, within the past two years, erected a very large Factory, provided it with *new machinery*, and otherwise so increased his facilities, as to enable him to turn out, annually, from one thousand to fifteen hundred Gins, which, for excellence of workmanship, and good performance, are not surpassed.

His Gins are all *faithfully tried* with Seed Cotton before leaving the Factory, and none sent away that will not perform well. He could produce many hundred certificates from Planters in the cotton growing States, testifying to the superiority of his Gins, but they are so well known, that he deems any further reference unnecessary; he will, however, add that the Gins manufactured at his new establishment are superior in workmanship and finish to any formerly made by him, and in every respect will challenge comparison with the best manufactured North or South. His Gins are warranted to perform well, with proper usage.

Gin Segments and Bolts, and Mill Castings, furnished from his Foundry at short notice. Contracts for Gins may be made with his Traveling Agents. His Gins can also be obtained from

H. KENDALL CARTER & CO.,

New Orleans, Louisiana;

ALLEN, BAGBY & CO.,

Houston, Texas;

GILMER & CO.,

Montgomery, Alabama.

And orders will be filled promptly by addressing the undersigned, at Prattville.

DANIEL PRATT.

Prattville, Alabama, April, 1856.
