SUBJECT Dr. Tom McKinnon,
ophthalmologist at Brookwood
Med. Ctr., firing a laser used
in eye treatment.

ADDRESS Suite # 201, Brookwood Eye

REMARKS Institute, on north end of
Brookwood Med. Ctr. Campus.

McKinnon uses what's called a tunable
dye laser, meaning that it shoots
beams of various colors depending on how
its controls are set. Need shots of him
firing various colors - blue, green, yellow,
orange - against wall of treatment
room. Beam itself may not be visible, but the
target spot on the wall will be.

(Photo identification and costs listed on back this order)
