The Southern & Atlantic telegraph line is completed from Selma to Mobile, thus affording communication from the latter city to New York.

There is no doubt about the fact that more grain has been planted in this county, this season, than for any three years since the war closed. It looks like you were in some magnificent grain sections of the West, to ride out in the country and see the beautiful crops of wheat, oats and rye. There cannot be too much grain sowed; after that will come independence, and horses, mules, cattle and hogs will be raised right here at home. The day of deliverance seems to be at hand.

The Jewish Passover begins at 6 p. m. to-day. It is intended to commemorate the passing over by the destroying angel of the first born of the children of Israel, on the 14th night of the first month. They are to eat unleavened bread for seven days, in accordance with the following Jewish law, 12th chapter of Exodus, 18th and 19th verses:

In the first month, on the 14th day of the month at even, ye shall eat unleavened bread until the 1 and 20th day at even.

Seven days shall there be no leaven found in your houses, for whoever eateth that which is leavened, even that soul shall be cut off from the congregation of Israel, whether he be a stranger or born in the land.

We have received from a valued friend and subscriber, at Rock Mills, Randolph county, a letter stating that a swindling concern in Chicago, Maynard & Co., had notified him that his ticket in their lottery had drawn two hundred dollars, and that upon sending them ten dollars (their commissions) his money would be forwarded. Our friend writes that he never had a ticket in any such concern, never wrote them a line in his life, and, of course, the whole thing is a cheat and swindle. If he had drawn the two hundred dollars, it would be very easy to send it along and deduct the commission before sending. We trust that all of our subscribers will act like Mr. Trent, who wrote to us this subject, and aid in exposing this swindle. Whoever sends Maynard & Co. anything only contributes that much to a combination of thieves.

The mineral resources of Alabama bid fair to meet a speedy development after all. A gentleman called at our office last evening to inform us that Commissioner BR-LAMBERT, of the Industrial Bureau, had arrived from a four week's search through the mountains, loaded to the guards with specimens of gold-bearing quartz, which he left with OFFUTT for public inspection. We are told that one of these specimens is of crescent shape, almost as large as a bushel measure, and on Mr. CAREW's scales weighed 169 pounds. In this specimen the vein is said to be a half inch thick, running from horn to horn of the crescent.

Professor BR-LAMBERT will not reveal the location from which these specimens were taken. He says, so we learn, that it is near the Coosa river, and that is the most he will tell. His idea is to ascertain, by further investigation, whether these are mere surface indications or whether they are all the wealth of that sort, there to be found. If the former, he will publish an elaborate and scientific report—the fruits of which will soon be seen and felt, in the teeming thousands who will flock to this modern Ophir to engage in the pursuit of wealth "down in the gold mine."

We copy the following interesting account of a dangerous and difficult surgical operation from the Augusta Chronicle and Sentinel of the 25th, ult. Mr. Holt has many friends here who rejoice to know that he is in a fair way to be restored to his usual health and usefulness.

One of the most dangerous operations in surgery and requiring a great degree of skill is that known as trepanning. We heard yesterday of an operation of this kind performed by one of our city surgeons upon a young gentleman, who proved eminently successful. The patient, Mr. Holt, of Augusta, was struck on the upper part of the forehead, over the left eye, by a musket ball, which fractured the skull and produced a painful wound. The wound was treated by several pieces of bone removed from the skull, and it was thought that all trouble in regard to it was over. This proved not to be the case, however. Mr. Holt became delirious and his condition grew more and more dangerous.

He finally became insupportable, and a short time since Mr. Holt performed an operation on the skull, and it being evident that the convulsions were caused by some depression upon the brain, the result of the wound. He successfully removed the bone, and the patient, who was in a very dangerous condition, is now recovering. Mr. Holt performed a very dangerous operation. Mr. Ford performed the operation, which was commenced at half-past twelve and continued at half-past one o'clock. A clotted, at half-past one, one inch in diameter, was taken out just above the eye, and an instrument called the trephine being used in the operation. The lower side of this piece formed the top and ragged edge of the fracture. Underneath this piece, and adhering to it, was a specimen of bone, which pressed upon the brain and caused the convulsions. The operation was completely successful. Several other surgeons were present and witnessed the operation, which was performed by Dr. Ford alone, and which is said by those who know to have been one of the most skillful in the annals of surgery. It certainly is a great credit upon Dr. Ford. This is the fourth operation of the kind performed by this surgeon, and the skulls of three other patients having been successfully trepanned by him.

A dispatch from Augusta, dated yesterday, says that Mr. Holt is getting along splendidly, and every one thinks he is entirely restored.

The number of interments for March in the City Cemetery was 43, of which 18 were white and 25 colored. Several were non-residents.

Mr. Alex. Tinsworth who has been confined to his bed for ten weeks past, has so far recovered as to leave this morning for Hot Springs, Arkansas.

Mr. L. Hitchcock, of Boston, and brother of Mr. H. W. Hitchcock, of this city, has gone to Selma with his fine race horses. There will be some good sport there this week.

Col. Jordan, Superintendent of the Mobile and Montgomery Railroad, states that the damage to that road by the recent rains will not exceed \$500. It is thoroughly prepared and trains move on schedule time.

Prof. Hilliard, the wire walker, has changed his programme. He will walk the wire as the fly walks the ceiling, from the U. S. court room to Jones & Cary's drug store, commencing at 9:30 a. m.

Mr. A. B. Campbell so well and favorably known in this city and for several years with Shulman & Frankfurter, is now connected with the popular dry goods house of Shulman Goetter & Well, where he will be pleased to meet all of his old friends and patrons.

The attention of our business community is invited to the article from the New Orleans Picayune, concerning the reduction of freights by this line from New Orleans through this city to Atlanta. Our popular and distinguished townsman, Gen. W. W. Allen, is the general agent for this route.

The Executive Committee of the Ladies Memorial Association, and all others interested, are requested to meet at Judge Bibb's residence, on Wednesday afternoon, April 1st, at 4 o'clock. Business of great importance to be transacted.

MRS. S. L. A. BIBB, Pres. MISS BETSY BELL, Secretary.

Mr. Geo. S. O'bear, the popular and efficient Secretary of the Cotton States Life Insurance Company, of Macon, Ga., has been in the city several days. He is a gentleman in every sense of the word, and represents a company that has peculiar claims upon the Southern people. Its officers are all men of wealth and high standing, and we are satisfied no company can show a better record than the Cotton States.

SPECIAL NOTICE.—Having purchased the barber shop of my brother (the late Henry Henes), persons visiting the city, and the public generally desiring to get a good shave, or a hot, cold, or shower, bath, at the old stand, (under OFFUTT's Book store, corner Market and Court streets), always in attendance a set of first class barbers, who will do all in their power to give general satisfaction to all who may favor me with their patronage. Thanking the public for past favors, and soliciting a continuance of the same.

I am, Very Respectfully, JOHN HENES.

The New Orleans Picayune of Friday last calls attention to recent great reductions in freight from that city to Montgomery and cities East. We copy as follows:

It is gratifying to see that the attention of Alabama and Georgia is being turned again towards New Orleans as a produce market. After the completion of the railroad line from Montgomery to Nashville, an immense amount of Western produce, with the exception of such as is shipped to New Orleans, will be diverted over the new route. But little trade came to this city from East Alabama and Georgia. Several weeks ago, however, the superintendents of the lines connecting with Atlanta determined to offer inducements to merchants in the West to make their purchases of Western produce in this city. At other points, such as Columbus, Macon and Montgomery, equal if not better opportunities for competition were offered. The result was that merchants of those cities, who have not for many years ordered their supplies from New Orleans, except occasionally and in small quantities, now send us large orders, with the promise of still larger if the low rates of transportation were continued.

The Chamber of Commerce, to these times, has been very successful in its efforts to reduce the rates of its opponents. The merchants of New Orleans will keep down to the rates of the other points, the people of East Alabama will keep down to the rates of the other points, and West Georgia will find here a cheaper market than that they have sought for on the banks of the Ohio—a market from which they will be able to get their supplies promptly, instead of having to wait for the purpose of making purchases, we will continue business on Mondays and Saturdays until 9 o'clock, p. m., until further notice.

WASHINGTON, March 31.

A peremptory summons from the Committee of Ways and Means was sent for Sanborn. A nice question arises whether the Ways and Means Committee will wait on the felony trial now progressing at New York.

The Senate, by a vote of 29 yeas to 27 nays, struck out the fourth section of the finance bill, as reported by the committee. This section provided for the gradual retirement of legal tenders as additional National bank currency should be issued, such retirement to be in ratio of 70 per cent. of additional National bank circulation until the volume of legal tenders should be reduced to \$200,000,000. Several amendments, offered by the friends of specie resumption, were rejected.

House.—Daves presented the memorial from the South Carolina Taxpayers' Convention, reciting the leading facts of miracle and oppression under which the people of that State are suffering, and asking some relief at the hands of Congress. Daves said he had always opposed any interference by Congress in the affairs of the States.

Daves said he did not know exactly what could be done about it, but he thought it just and proper to receive the petition.

After further discussion the petition was referred to the Judiciary Committee.

NEW YORK, March 30.

Sanborn and his partners are acquitted. The indictment was defective so as to exclude certain evidence.

Judge Benedict delivered an opinion which resulted in release of Sanborn, and others, on grounds raised by their counsel yesterday.

Sanborn had been indicted for defrauding the government, by collecting money of revenue, which he had no part in collecting, and that those indicted with him, had aided and abetted him, in swindling the Government.

Wind is northwest.
