

## Advertiser and Mail.

W. W. SKEWES, Editor.  
M. H. COOKE, Editor.

Montgomery, Ala., Wednesday, April 22, 1874.

The DAILY ADVERTISER, the oldest daily paper in Middle Alabama and with one exception in the State, is published every morning except Sunday, at TEN DOLLARS a year; FIVE DOLLARS six months; TWO DOLLARS AND A HALF three months; ONE DOLLAR per month for shorter periods. Sent by Carriers in the city.

The WEEKLY ADVERTISER (Wednesday), a thirty-six column paper, TWO DOLLARS per year; ten copies SEVENTEEN DOLLARS AND A HALF; fifteen copies TWENTY-TWO DOLLARS AND A HALF.

Remittances should be made by Post Office Money Order or Express, or by sending the money in a Registered Letter.

Contracts for Advertising Space made upon liberal terms. Address: THE ADVERTISER, Montgomery, Ala.

### More Mention.

WASHINGTON seems to be BUTLER'S Nemesis. He beat old "spoons" for the office of governor last year and has beaten "old spoons" man Friday for U. S. Senator.

There is a time of floods. Never before have all the water courses, east, west and north, been so full for so long a time. More water has fallen this year than has fallen within the memory of the oldest inhabitant.

HON. H. T. TOLMIN, formerly representative from Mobile, is now a candidate for circuit judge of the Mobile circuit. He is a democrat of the strictest sect, and a lawyer whose talents and acquirements would eminently adorn the bench of that or any other circuit.

THE Radical party in this country had a wonderful vitality. As a general rule all things subject to decay die before they rot, but this party rotted before it died. Let the rites of sepulture proceed with all possible haste, for the sight and smell of the putrid carcass are loathsome in the extreme. Pshaw!

COL. STEPHEN D. POOL, of Craven county has been nominated by the State Executive Committee for the office of Superintendent of Public Instruction of North Carolina. As this was the only office vacant the party by consent left the nomination in the hands of the Executive Committee and the Wilmington Journal says the nomination is a strong and good one.

THERE is a lie out. The negro, ELIOTT, in his Boston edition of SUMNER, declared that he—SUMNER—had heard Judge TANEY announce that "the black man had no rights which a white man was bound to respect." As Judge TANEY made no such declaration or announcement, there is a lie out, and it lies between the dead lion and the living ass who pronounced the eulogy. *De mortuis ergo*, we believe it was told by the latter—there is something so characteristic about it.

THERE is no longer any doubt that the Radical party North is dead. If a Presidential election were to come off to-morrow we do not believe that outside of New England the candidate of that party would carry one single State! We do not say this in any boasting spirit, but in deep thankfulness rather, and after a comprehensive review of the entire field. Our readers can form no idea of the terrible demoralization that exists in the camps of the "faithful." They are already routed—horse, foot and dragons—as effectually as the Assyrian hosts were before the walls of Jerusalem. As BYRON said of France, they "got drunk on blood and vomited crime," and now their crimes have overtaken and slain them. Let Prudence and Moderation be our Southern watchwords, and no resurrecting arm will ever reach that defunct and thoroughly rotten fraud upon the American people.

The Tuscaloosa Blade suggests the justice and propriety of nominating Capt. J. G. HARRIS, of Sumter, for Congressman from the 4th District. In 1870 when the Democracy of the 4th was the forlorn hope of the State Capt. HARRIS, at the bidding of his party and almost without the faintest hope of success, gallantly threw himself in the "imminent deadly breach" and saved the State. There is no gaining votes, and the Democratic majority in the State was less than two thousand. He did it by hard work. No candidate ever did harder in any campaign. In 1872 he declined to become a candidate for the nomination. Whether he would accept it now or not we do not know, but we do know that he would make a splendid run and that if elected he would represent the true interests of his district with distinguishing zeal and ability—something which has not been done for the old 4th in many years.

### An Infamous Report.

We were not surprised to hear that the majority of the Senate committee on Privileges and Elections had reported that SPENCER was entitled to Dr. SYKES' seat in the Senate. It would have surprised us if they had not done so. The history of the Senate and House during the last ten years justifies the belief that SPENCER would have been declared entitled to a seat if he had not received ten legal votes. Every man in Alabama knows, or ought to know, that the Court Room loggia had no Senate, whatever might have been said or thought about their *de jure* House. Hence every man in Alabama knows or ought to know that the majority of the Senate Committee willfully and knowingly falsified the facts and trampled on the right when they declared SPENCER entitled to his seat. Further comment is unnecessary.

## How the Radical Party in the Legislature Attempted to effect a virtual Confiscation of Lands.

We left this question yesterday at that point where in his furious zeal the State Journal's pet LEWIS, let the confiscation "cut out of the bag." The Democratic members who responded so promptly to his incautious statement of the objects sought to be accomplished by the Equalization scheme had, all along, known and felt that there was some iniquity covered up in that clause of the bill, but not having been "behind the scenes" they had been compelled to rely upon blind conjecture until this pointed declaration cleared up the mystery. They knew that, in the very nature of things, the Board could not have been intended to do justice (1) because its members could not be expected to possess the requisite information, especially with respect to counties they had never seen, and (2) because there was no means provided whereby such information could be obtained. Of these two reasons the first is well nigh self-evident; and of the second it is only necessary to say that the very proposition to establish such a board embodied an indirect charge that the only men competent to prove the real value of lands (the land owners) could not be believed on oath. Each tax-payer swears to the value of his property when he gives it in.

Hence to assert that any one county has failed to return a correct valuation of its real estate must necessarily be to charge that the mass of the tax-payers of such county have sworn to false returns. By whom, then, could any such Board hope to prove higher value than the owners of the lands had sworn to? Not by the owners themselves, evidently, because they would hardly consent to impeach their own veracity. Not by the members of the Board, because not one of them would be able to swear truly to the value of one-third of the lands in his own county. Not by the assessors, because that would be to put the feet of the assessor in one scale and his oath in the other. It was, therefore, very clear that if the Board acted at all it would be compelled to act upon arbitrary rules—and who could guess the limit to which arbitrary powers might not extend? This reasoning proves that some sort of *injustice* must have been contemplated by those who proposed and pushed with such relentless vigor this Equalization scheme, because, as we have already shown, justice was altogether out of the question. Here we might have been altogether at sea but for the chart so kindly furnished us by the statesman from Perry. That "injustice" was to "raise the taxes to such a pitch that GREEN LEWIS, and others of his sort, could buy" at the tax sales, the lands which the large land holders of the State would thereby be "compelled to sell."

But why should the large landholder be *compelled* to sell? Because the negroes, who constitute the mass of the Radical party in the State, acting and speaking through their so-called "Labor Union," had demanded it. How do the anti-monopolists of the northwest seek to render effective their opposition to high railroad tariffs? By meeting in Conventions and formulating resolutions against them? Not they rely upon nothing of the sort. They rely upon legislation! True, they meet and pass resolutions; but they do so with the deliberate intention of injecting the essence of such resolutions in the laws of the land. Take away the possibility of doing this and we may hear a protest—but no resolution. The "anti-monopolists" of Alabama occupy the same ground with respect to the land monopoly that those of the northwest do with respect to the railroad monopoly, so far, at least, as the means of relief sought are concerned. Both look to legislation, because, in the very nature of things, they can look nowhere else. It is also worthy of remark that those of Alabama (disguising their true character under the thin veil of a Labor Union) seized upon the week immediately preceding the assembling of the Legislature to indicate their pleasure by resolutions and to issue their petitionary commands to that body. SPENCER, it will be remembered, was in Huntsville at the time the Union assembled. He knew that the members of the Union were not "land monopolists," and had excellent reasons to believe that there was not a land holder amongst them. This being the case what was there about a "Labor Union" *per se* to call forth such a dispatch as he sent, about the "curse to the state" of monopolies in land? Doesn't it look a little suspicious to say the least, that he should be so exactly informed of what that Union proposed to accomplish, if there was no prior understanding—no conspiracy between him and the Union? If there was such understanding is it not fair to presume that SPENCER was not the only white Radical who had been honored with their confidence? THOMAS we know was. If others were there, admitted who shall undertake to say that all the leaders were not? The presumption that there was an organized conspiracy to tax the landholders of Alabama, out of houses and homes is, therefore, created in advance of the action of the Radical party in the Legislature, and that presumption deepens into an almost positive assurance when we behold a measure introduced in the Legislature, and championed solely by that party which could not, by any possibility, have resulted in anything less than a gross injustice to the tax-paying people of the State and which was, without doubt, entirely competent, to effect the precise purposes which the Labor Union must

have had in view when the resolutions before referred to were reported and adopted. Conspiracies of this sort are always concocted in secret. It would not do to let the opposition know where the blow is to fall until the axe is sweeping downward upon the neck of the victim. Hence we are almost always compelled to rely upon circumstantial evidence to establish their existence. But in this case we have the positive testimony of one of the conspirators to give force and direction to the circumstantial evidence. He didn't want the clause stricken out—Why? Because, as he tells us himself, "he wanted the taxes raised to such a pitch that the large landholder would be compelled to sell so that he and others like him could buy"—a declaration which, under the circumstances, could not possibly have meant anything else than that the Board of Equalization was the thing to do the work.

### The Party of Reform.

It is a favorite dodge with those Radical papers which have grown distinguished with their own party, to cry out that "both of the old parties are corrupt," and that a "new party—a reform party—must be organized." If both the old parties are corrupt what pure material can be found to make a better? The old parties monopolize the voting strength of the whole country. If that is corrupt there is no hope of Reform from any quarter. The truth is, the Democratic party embodied all that remains to this country of purity in its politics. It is made up of men whom Place and Plunder could never bribe to betray their principles, even in the very darkest hours of defeat, and amidst all the terrors of the most despot and proscriptive public opinion. In such matters there is evidently no corruption. But let the experiment of organizing a new party of "Reform" be tried, and the foremost villains in the old Radical bulk will jump aboard, seize the reins and drive it in the very same corrupt round, on the self-same down grade, that they are now driving the Radical party. They cannot do that—they cannot hope to do it—in the Democratic party. The old veterans of that organization do not readily take new pilots. Once the rash experiment was tried of surrendering temporary control of the helm into the hands of the best man that had ever illustrated the annals of Radicalism and the result was that the "good old barque got among breakers and was well nigh swamped forever. That lesson has not been forgotten—nor should it be, because it taught us the sublime virtue of self-reliance. It also taught us greater respect for the opinions of those old CINCINNATI of the party, who years ago folded the robes of their purity about them and retired from the scenes of demagoguery and corruption. It is to men of this stamp whether old or young, that we must look for guidance in the great work of permanent reform. As to those who have been floating on the popular waves, have not wholly escaped suspicion of contamination. The storm threw so much of the dregs and sediment of society to the surface that few men could long swim among it without bearing away some taint of their impure surroundings. It is altogether owing to this fact that there is any shadow of truth in the plea of general corruption which the Radical malcontents interpose in favor of a separate "Reform Party." They point us to those Democrats who voted for the "Salary Grab," as illustrations of the soundness of their theories, whereas, in point of fact, they are mere exponents of the theory we have advanced above. We do not believe, nor do we charge, that all the Democrats who voted for such measures as the "Salary Grab" are corrupt, any more than we believe or charge that those who voted for the confirmation of STANTON, as collector of the port of Boston, did so because they conscientiously endorsed his nomination. The latter was a bit of political strategy and, to a certain extent, was the former. But the touch of "the unclean thing" necessarily defiled their garments, and they should now be requested to stand aside that other men, against whose record no word of reproach can be uttered, may have a showing. In plain language this is the very nick of time in which the Democratic party, by the conservatism of its conduct and the wisdom of its official action, should demonstrate to the country its perfect nerve and capacity to reform the abuses of Government. It is to an organization of this sort that those men look who are now deserting the Radical ship; and if they can find it ready made in the Democratic party they will never risk the doubtful experiment of organizing, or seeking to organize another. The general tendency is to a conservative reaction and an obliteration of the late insane prejudices against the Democratic party. The Springfield (Mass) Republican understands all this; and although it has been one of the most vigorous of harpers on the string mentioned at the beginning of this article, we now find it preparing to take another tack. In view of the crushing logic of the late elections it says:

"Events are dreadfully illogical, and it is sometimes the unprecipitated and unexpected that comes to pass. What the people want, and are bound to have, is reform. If they can not get it at once and secure it in one way, they will try another. If the ideally best way does not present itself, they will make a shift to reconcile themselves to one that is not the ideally best. The reforming Republicans have already tried perilously with their opportunity. There may be time enough yet, but there is none to spare. The chances of direction and leadership is slipping away from them, month by month, week by week, day by day. If they go on with this force which they call making the fight for reform within the party a few months longer, and if the Democrats, ready to accept of the reform from within and without, stand firm in their good resolutions, it will not be the reforming Republicans that will name the reform candidate for the Presidency in 1876."

The Republican means to say that it will be "the Democrats who have resisted all temptations and stood firm in their good resolutions who will name the reform candidate for the Presidency in 1876. It might, with equal safety, have said "the reform President in 1876" for on the conditions named no party on earth can carry six States against the Democracy in 1876.

### State Press.

Opelika Daily Times. We had a pleasant visit on yesterday from Gen. Geo. F. Harrison of Auburn.

The General speaks hopefully of our success in the coming campaign. He said the time is past for the great war had more active workers like General Harrison.

In connection we will state that his name is prominently mentioned for Congress in the 1st district. In his election the "Third" would secure a representative in the National Council of which he might justly be proud.

Florence Times-Journal. We take pleasure in making the attention of readers to the announcement of Hon. James S. Clarke for reelection to the office he now holds. As a Circuit Judge, Judge Clarke is second to none in the State. He is a sound lawyer, and a man of irreproachable character. The promptness and impartiality with which he has discharged his duties for the past six years, have won for him the respect and admiration of the bar and people. With such men as Judge Clarke in office the people have nothing to fear.

Lafayette Clipper. Gov. Wells is one of Alabama's ablest and purest statesmen, and we were delighted to listen to his Opelika speech, because he is one in whom all can confide. Eighteen years have elapsed since he was elected Governor, and we believe he was a Fillmore elector. Would that all our politicians had the purity and patriotism of Governor Wells. We do not know that he is any great man, but we do know that he would be glad to see him once more Governor of the State, or filling the place in the U. S. Senate disgraced by the carpet-bagger Spencer. But we are glad to see him in politics. We hope the venerable Ex-Governor may have many more years of health and prosperity.

We understand that a movement is on foot, in our city, to call a Convention of the Lawyers throughout the State some time in the summer. The objects of this Convention are:

1. To suggest changes in existing laws.
2. To suggest the enactment of such general laws as may afford better protection to person and property.
3. To suggest rules of practice in the several courts, better calculated to reduce the expense of litigation, and more speedily attain the ends of justice.
4. To declare a code of legal ethics, and to adopt measures for the purpose of enforcing the same.

Florence Times and Journal. In looking over the report of the State Auditor, we find that Wm. R. Childs received of the State Treasury—the people's money—six hundred and seventy-eight dollars for days services as the clerk of the Legislature, as Senator from this District. It is known to every voter in this District that Childs had no right to receive that sum, but we should like to know what right he had to a seat in the Legislature of Alabama? and by what right he received his pay? They have put him forward for the second position in the State, and must endorse his record. Let them explain Mr. Childs' conduct in this matter.

### The University of Alabama.

Having shown that the real cause of the trouble between the University and the Legislature is the prejudice against it, and in the mode of electing its governing body, we proceed, in conclusion, to the whole question, to point out the measures of relief and reform needed in the present conjuncture of the fortunes of the Institutions:

1. The University owes the State \$40,000, the amount of a loan made by the latter to the former for the erection of the present University buildings. This debt should be either entirely remitted, or extended, without interest, for a number of years. If not, the exact payment of it, in whole or in part, at present, might seriously embarrass or even fatally cripple the finances of the University.
2. The number of Professors in the University should be diminished by the consolidation of cognate or affiliated chairs. Five, or at most, six Professors, including a President, would, we think, be quite a sufficient number in the present condition of the University.
3. At least one student from each county in the State, should be boarded and educated in the University, free of all expense. The reduction in the number of Professors, and the remission or indulgent extension of the debt due from the University to the State, would, in great measure, enable it to assume this burden. The resulting benefit to the University of such a popular benefaction, would be two-fold. First, the gratuitous boarding and education of the young men from each county in the State, would tend largely to enlist popular favor and sympathy in behalf of the University. Second, such an arrangement would secure the constant presence in the University of a number of young men,

equal in the State, which would constitute a permanent and permanent minimum of numbers below which the attendance in the University could never possibly fall.

4. The President of the University should be required, or a competent agent appointed, to canvass the State in the interest of the University to answer objections to it, to solicit patronage for it, and to appeal to the State for aid in the individual and community interest of the people in its behalf.

5. The friends of the University, and of the cause of education in the State, should unite in the effort to abolish, by suitable amendments of the State Constitution, the present cumbersome and expensive educational system, and reconstitute the old plan of electing the Board of Trustees of the University by a joint ballot of the two Houses of the General Assembly of the State.

The above mentioned measures of relief and reform, we think, imperatively called for by the present and the prospective condition of the University. We barely enumerate them, pretermittent, for the present, at least, to the consideration of any one of them.

Tuscaloosa Times.

### Our Changing Bodies.

Our bodies are constantly changing. The dead matter passes off by the bowels and the pores, and digestion and assimilation supply fresh material. This material cannot be pure, and consequently the body cannot be healthy until the stomach and the secretory organs perform their allotted tasks thoroughly and regularly. That they may do so, keep them in good working order with most efficient of purgative preparations, Hostetter's Stomach Bitters. If you wish your blood to be really the "stream of life," to have your bones clothed with sound flesh, to be free from nervousness and debility, to be cheerful and cheerful in short, to possess that choicest of Heaven's blessings, a sound mind in a sound body, take Hostetter's Stomach Bitters. If you wish your blood to be really the "stream of life," to have your bones clothed with sound flesh, to be free from nervousness and debility, to be cheerful and cheerful in short, to possess that choicest of Heaven's blessings, a sound mind in a sound body, take Hostetter's Stomach Bitters. If you wish your blood to be really the "stream of life," to have your bones clothed with sound flesh, to be free from nervousness and debility, to be cheerful and cheerful in short, to possess that choicest of Heaven's blessings, a sound mind in a sound body, take Hostetter's Stomach Bitters.

### Joy to the World! Woman is Free.

Among the many modern discoveries looking to the happiness and amelioration of the human race, none is entitled to higher consideration than the discovery of Dr. J. C. Bradfield's Female Regulator, Woman's Best Friend. By it woman is emancipated from numerous ills peculiar to her sex. Before its magic power irregularities of the female system, the causing, we may suppose, of the menses. It removes uterine obstructions. It cures constipation and it strengthens the system. It braces the nerves and purifies the blood. It never fails, as thousands of women can testify. This valuable medicine is prepared and sold by L. H. Bradfield, Druggist, Atlanta, Ga. Price \$1.50 per bottle. All respectable drug men keep it.

### Tuskegee, Ala., 1873.

MA. L. H. BRADFIELD—SIR: Please forward me a bottle of your Female Regulator, and I will send you a testimonial of its value. I have used it for several years, and it has cured me of all my ailments. I am a woman, and I am very grateful to you for your discovery. I am, Sir, your obedient servant, M. L. H. BRADFIELD.

### We the undersigned, druggists, take pleasure in commending BRADFIELD'S FEMALE REGULATOR, believing it to be a good and reliable remedy for the diseases for which he recommends it.

L. H. BRADFIELD, Druggist, Atlanta, Ga.

REDWINE & FOX, Atlanta, Ga.

W. C. LAWRENCE, Marietta, Ga.

STATE OF GEORGIA—COUNTY OF:

This is to certify that I have examined the recipe of Dr. J. C. Bradfield, of this county, and find it to be a good and reliable remedy for the diseases for which he recommends it.

W. P. BRADLEY, M. D.

This December 21, 1873.

For sale by J. W. HALL, Wholesale and Retail Druggist, Montgomery, Ala.

### Obstacles to Marriage.

MA. L. H. BRADFIELD—SIR: Please forward me a bottle of your Female Regulator, and I will send you a testimonial of its value. I have used it for several years, and it has cured me of all my ailments. ### FUNERAL NOTICE.

The friends and  
acquaintances of Mr. JAMES R. LEWIS,  
and Mrs. KATE LEE LEWIS, are  
respectfully invited to attend the fu-  
neral of the former, from the residence  
of Mrs. H. P. LEE, this Wednesday  
evening at 8 o'clock.

We are pained to hear that a little  
son of Mrs. Littlepage, of this city—  
Hardie by name—had the misfortune  
to encounter a severe and dangerous  
fall yesterday. Both of his arms were  
broken, and it is feared that his skull  
was fractured also. This is the third  
time that the poor little fellow has had  
his arms broken.

The ladies of the Benevolent Aid  
Society, with a view to the renovation  
and repair of the Synagogue, propose  
to give a grand fair on or about the  
21st of May. They have engaged both  
rooms of the Standard Club rooms,  
and will wait on our citizens next  
Monday, for substantial aid. Next  
Monday knows how easily these ladies  
command success and is therefore fully  
prepared to expect the grandest  
event of the season.

Charles Appleby (n) who was con-  
victed of burglary a few days ago, and  
sentenced by the Circuit Court of  
Chambers county, to a term of two  
years in the penitentiary, reached the  
city yesterday, and will leave  
at 9:45 this morning for his  
beautiful boarding house on the clas-  
sic banks of the Coosa. Deputy Sher-  
iff J. T. Martin and special deputies  
J. M. Driver and O. S. Burnett, were  
keeping an eye on the enterprising  
fellow.

Our distinguished friends and fellow-  
citizens, Col. M. D. Graham and  
James M. Smith, leave the city this  
morning for Palestine, Texas. We  
wish them a safe and pleasant voyage,  
and a speedy return. Col. Graham  
goes to give his personal attention to a  
suit at law, involving the title to  
35,000 acres of land. Mr. Smith visits  
the Lone Star with some intention of  
making it his future home—so we  
learn. With no thought of wishing  
him the least harm, we do most sin-  
cerely hope that he will not be pleased  
with the State. Montgomery can ill-  
afford to spare such a man as he.

We acknowledge our indebtedness  
to the Committee of Invitation for a  
polite invitation to attend a Social and  
Ottolillo Party, to be given on the  
Seventh Anniversary (May 8) of the  
gallant old Cleburne Fire Company  
No. 1, in compliment to the equally  
gallant Eufaula Rifles. The commit-  
tee of arrangements consists of Messrs.  
G. H. Sporman, C. E. Goodwin, A.  
Brenner, J. E. Slinger, and J. C. Mc-  
Kenzie. The managers are Messrs. E.  
J. Black, D. T. Sheehan, T. P. Graves,  
L. S. Newman, and C. C. Skillman.  
The committee of invitation consists  
of Messrs. Geo. M. Allan, J. W. Bil-  
lings, H. P. McSweeney, W. V. John-  
ston, and Edward E. Low.

Capt. Wm. B. Jones, Chief Marshal  
of the memorial exercises is the right  
man in the right place. He shows his  
faith by his works and his zeal by both.  
It is pleasant to respect and honor a  
man of his stamp. He is pushing the  
work of preparation with great energy  
and success. In another column he  
summons his aids to his side, and when  
they join hands and hearts with him  
in the work, failure will be out of the  
question.

We learn that invitations have been  
extended to the following bodies to par-  
ticipate in the solemn ceremonies of  
the day: Good Templars, Cold Water  
Templars, Montgomery Greys, Fire  
Department, all the schools in the city  
some ten in number, the Silver Cornet  
Band, and perhaps one or two others  
not now remembered. As a matter of  
course these invitations will be accept-  
ed. Some of them have been already  
—the others will be. Captain Winter  
and his admirable company are new  
uniforming for the occasion. The  
fire companies are getting ready also.  
They would soon be lagged on an  
occasion like this. The Good Tem-  
plars, of all ages, will do all they can,  
and the little children—whosever heard  
of their falling to respond when they  
thing that appealed to the softer, better  
side of human nature called? Then  
there are the ladies—last but not least—  
a theme on which eulogy might exhaust  
itself and leave the half untold. They  
will be out in force. They never fail.  
Their hearts in this cause are like the  
widow's cruse of oil.

This review shows that the process-  
ion bids fair to be the most imposing  
that ever honored a like occasion in  
this city. Let each individual resolve  
within himself to contribute what aid  
he can, and we will guarantee a most  
glorious success.

THE ANNIVERSARY CELEBRATION.  
Montgomery Lodge No. 6, Independent  
Order of Odd Fellows, will cele-  
brate the approaching Anniversary of  
the Introduction of Odd Fellowship  
into the United States, on Sunday, the  
28th inst. The Rev. Mr. Jones, a  
member of the Order, has kindly con-  
fided to deliver an appropriate ser-  
mon, at 11 o'clock, a. m., on that day.  
The members of the Lodge, and of  
Harmonie Lodge No. 56, and all visit-  
ing Brethren, will assemble at Odd  
Fellows' Hall, at 8 o'clock, a. m., on  
Sunday, April 28th, and repair to the  
Methodist Protestant Church, in re-  
gatta, where the exercises will be held.  
All Odd Fellows in sympathy with the  
Order are fraternally invited to unite  
in the celebration. A cordial invita-  
tion is extended to the public to at-  
tend the exercises at the church.

R. W. SHARP, N. G.

T. S. DORRIS, Secretary.

### FINE FURNITURE.

For the next 60 days, we will sell  
Parlor and other fine furniture at cost.

ap21dhw Perry street,

### Montgomery Female College.

Editors Advertiser.—A short time  
since, in looking over a catalogue of  
the officers and pupils of an institution  
of learning located in a neighboring  
city, I found several Montgomery  
names, and the thought occurred to me  
that these pupils would not have been  
sent away and our city drained to the  
extent of their board, tuition, &c., if  
the merits of "home institutions" had  
been fully presented before the public.  
I admire the spirit and foresight of the  
who seek to educate their children in  
the highest and most perfect manner  
that the means at their command will  
allow. Hence it will be observed that  
I do not mean to censure or criticize  
any gentleman who sends his daughter  
to other cities for an education. My  
purpose is to try to convince such  
that they can do just as well at home.

I have attended, in my time, two fe-  
male colleges, reckoned among the  
first in the South in point of ex-  
cellence. I spent two years in each,  
during which time I became  
familiar with all the workings of their  
respective systems of education and  
discipline. Each had its merits; nei-  
ther without its faults. Since then  
I have patronized one or two institu-  
tions of high standing and, by ob-  
servation, gained a thorough insight into  
their rules, regulations, standard of  
scholarship. I have also familiar-  
ized myself with the practical opera-  
tions of Mrs. Chilton's "Montgomery  
Female College" and compared it, de-  
partment by department, and also  
the harmonious whole, with the other  
institutions to which reference has  
been made in this letter, without dis-  
covering a point in which it does not  
deserve to rank equal with the best.  
Mrs. Chilton's discipline is perfect.  
Her management is very superior.  
Her teachers understand their business  
and are well qualified to instruct in  
siduous and arduous studies. And,  
going from the tree to its fruits,  
I find, as far as my observation extends,  
that her pupils learn readily and un-  
willingly. I have seen no other institu-  
tion in which it is so easy to secure a  
good education.

These facts are susceptible of easy proof  
by any one who will take the trouble  
to visit the college, or to examine the  
foundations on which the fine local  
reputation of this College rests. And  
as they show it to be worthy of home  
patronage, it is too much to hope or  
expect that citizens of Montgomery will  
at least test the matter before sending  
their daughters out, beyond the pale  
of home influence? Their example  
will encourage persons in the neigh-  
borhood of the college, to send their  
daughters to Montgomery, and we shall  
then, build up a college of the time  
at the expense of her own private  
purse, to put her fine college on its  
present secure and admirable basis. She  
deserves the patronage of the citizen-  
ship, and the citizens of Montgomery  
at least test the matter before send-  
ing their daughters out, beyond the pale  
of home influence? Their example  
will encourage persons in the neigh-  
borhood of the college, to send their  
daughters to Montgomery, and we shall
