CANDIDATES.

WE are authorized to announce D. H. TAYLOR as a candidate for Sheriff of Butler County. Subject to decision of Convention, if held.

The friends of WM. M. FLOWERS announce him as a candidate for Sheriff of Butler County, at the approaching election.

To the Voters of Butler County.

We, the undersigned, citizens of the following towns, viz., Deal Hill and Montgomery, being desirous of electing our county officers, as far as possible, from the country, and in clear opposition to any and all candidates who may be presented in the town of Greenville, do hereby request the hearty cooperation of all country citizens in the coming election, and we have organized a committee for the purpose of securing the election of the following candidates for Sheriff of the county, and for the judges of the county, and we will only accept of the support of those who can show a stronger or more popular support.

Attention.—We will take pleasure in furnishing any Grange with a sample copy of By-Laws, if they will only make application to us.

The price of cotton in this city is from 12 1/2 to 13 1/2 cents.

Crenshaw Circuit Court is in session.

Chancery Court has adjourned, and the Chancery has gone home.

An opportunity to get two fine plantations is offered in our advertising columns. There are also some legal advertisements, and the Crenshaw tax sales.

Messrs. Flexner & Lichten, of the Southern dollar store, are now receiving their handsome spring stock. All of the latest styles of ladies' dress goods, trimmings, embroideries, &c., &c. Go and see their splendid stock. Full particulars given by advertisement in our next issue.

Religious.—We are requested to announce that Rev. T. C. Boykin, the Baptist State Sabbath School Evangelist, is expected to preach at the Baptist church to-night (Thursday) and to-morrow night. On Saturday a Sabbath School Institute will be held, at which a number of speeches will be made upon subjects pertaining to the Sabbath School interests. On Sunday afternoon a Sabbath School mass meeting will be held. The Sabbath Schools of the city, and all others interested, are cordially invited to be present on each occasion.

Attention.—All who feel an interest in the organization of a Hook and Ladder Company are earnestly requested to meet in the Court House at 7 o'clock to-night. Come up and lend a helping hand in the organization of one of Greenville's greatest needs.

The troubles in Spain have not interfered with the quality or the prices of Nathan's goods. He sells cheap, as he always has, and will give you a good article.

The letter from Arkansas reached us rather late for this issue.

A considerable frost visited this county on Sunday night, but it is said that frost in March is not often injurious. Since that time we have had a warm rain.

We are under obligations to some one unknown for a copy of the speech of Senator Carpenter, of Wisconsin, on the Louisiana question.

We regret to learn of the death of Mr. Wm. Hayley, formerly of this city. He resided last year to Louisiana, and died at Shreveport about two weeks ago. His widow and daughter have returned. Mr. H. was a good man and citizen, and his death will be deeply regretted by his old friends and acquaintances.

Mr. T. A. Sikes, the tax collector of Crenshaw county, is a candidate for reelection. The small number of delinquent tax-payers in that county not only speaks well for the people, but is evidence of the activity and fidelity of Mr. S. in the discharge of his duties. When you get a good officer, keep him; they are not found every day.

SHOT.—It is inconvenient and unpleasant to be short of money, because then a man is apt to be also short of friends, and clothes, and something to eat. And it is sometimes unfortunate to be short in stature, especially if a man has an eye to the ladies, because the beau ideal, or rather the ideal beau, of every young lady is a tall, handsome fellow with silken moustache—(why they are so particular that the moustache should be soft, might require some explanation). So, then, the man who is short, in any sense, is an unfortunate man on general principles; and he is especially so when the ladies begin to make fun of him about it. We have a case in hand. A few evenings since a wedding was to take place in this city, and a short young man and a tall young lady were to stand up with the happy couple. The young lady has a sense of the ludicrous and the spirit of mischief, and in the afternoon before the wedding she sent word to the short young man that he must put some salsoda and yeast cakes in his boots, to make him rise a little higher! It is not stated that the young man burst into tears when he received the message, but fancy his feelings!

STEWART.—Ever since the Mardi Gras ball in Montgomery, the newspapers of that city have frequently spoken of one Stewart, who sold a number of tickets to that ball, and then ran away with the money. This is doubtless not the first time that Stewart has appeared in print. Years ago humorous John Phoenix went to Oregon, where he attended a horse-race. Like many others before him and after him, he was deceived by appearances, and bet on the wrong horse; for Stewart had a horse which he had purposely caused to look rather shabby, but which was really a very fast runner. John Phoenix put up his money against that horse and lost it. He says Stewart knew what the result of the race would be, and had prepared a champagne basket full of blank notes to be signed by those from whom he would win more money than they could pay on the spot. The story is told in doleful rhyme, and John thus concludes the record of his misfortune and Stewart's hard-heartedness.

"And this speculator Stewart, to make the matter no took all the money, and didn't care a cent."

That Montgomery man is doubtless the same old Stewart, or his dutiful son.

GRAIN.—Our friend Dr. Bragg has taken the trouble to go to the merchants of Greenville and learn how much seed grain they have disposed of this season, and kindly furnishes us the following note:

From statistical amounts furnished by the merchants of Greenville, of the number of bushels of seed oats disposed of for planting, we infer that the farmers of this vicinity are waking up from the suicidal policy pursued hitherto. There have been ten thousand bushels of seed oats sold in Greenville this season, and one hundred bushels of rice—which is about five hundred per cent. more than has been sold heretofore. We have also the gratifying intelligence that the farmers are planting large crops of corn, and will plant but small crops of cotton. This is doing as they should, and will relieve themselves of difficulties, and make them independent of parties.

The Floridian, published at Tallahassee, Florida, by Messrs. Dyke & Son, is the Official Democratic paper for the State, and occupies the same position in Florida that the Montgomery Advertiser does in Alabama, it is the best paper in the State and is owned and edited by the best man. If any of our readers want a good Florida paper take the Floridian.

The people of Crenshaw county, financially, are in a better condition than ever before since the war. The treasurer says if he had the money that is behind from the delinquent tax collector, J. V. Benbow, that he would be able to pay every debt the county owes. There are only four delinquent tax-payers now advertised. This is a good showing for our sister county.

NEW ROUTES.—The following new mail routes have recently been opened in this section of the State:

From Montgomery, via Newtow Academy, to Pine Apple.

From Rutledge, via Holcomb, Argus, Arcadia, Strain, Mount Carmel, and Hickory Grove to Leitchfield.

From Ozark via Westville, Daleville, High Bluff, and High Falls, to Geneva.

From Abbeville, via Curenton's Bridge and Echo, to Ozark.

From Troy, via Union Hill, to Clay ton.

From Hayneville, via Bragg's, Farmersville, and Pleasant Hill, to Pleasant Hill Station.

The Russell Recorder says:

"Our local columns show but a slight admiration of the coming contest in November next, for the several county officers."

Well, we don't know, but it seems to us that if we were a subscriber to a paper that was guilty of such as that, we would quit it. It shouldn't come into the family.

The gardens in and around this city are looking very well, and give promise of something to eat before long.

COUNTY COUNCIL.—The delegates from the following Townships: Greenville, Talula, Georgia, Monterey, Mt. Olive Oak Streak, Shalleville, Fort Deposit and Pánola met in the Hall of the Greenville Grange on yesterday evening and completed the organization of a County Council, begun at their meeting on the 21st of February. Col. J. E. Tate, of Georgia, President, in the Chair.

It appeared that there were two errors in the Constitution published last week: The word "Butler" should have been left out of the name of the Council, thus making it "County Council;" and the days of meeting should have been the 2d Wednesdays in January, April, July and October, instead of the 2d Saturdays in those months.

Owing to the very inclement weather, the attendance was not so large as was anticipated, but, nevertheless, the proceedings were very interesting, and embraced subjects of vital importance to the Patrons.

We regret that owing to the lateness of the hour we could not give the full proceedings to-day; we will do so, however, in our next.

THE HEALTH OF OUR CITY AND VICINITY IS VERY GOOD. We have not heard any complaint about it from the physicians, because they like to see the people in good health.

Several gentlemen from Georgia were in the city yesterday, and some of them honored the ADVOCATE with a visit.

A HOME INSTITUTION.—Mobile's Marble Works.—The modest but energetic young gentlemen who compose the firm of McDonald, March & Co., commenced business a few years since, and by industry and close application to business, backed by a master-like skill in their profession, have built up a business of which they should be proud. Our city can show many specimens of the beauty of their designs and the excellence of their execution in matters of stone and marble; while our graveyards teem with many beautiful specimens from the simple grave stone to the stately monument—of their handiwork. The result of all this is that these gentlemen have acquired capital and possess facilities which enable them to take the largest contracts—as instance their work on the new Court-house (already finished) and on the Cathedral, which one of these days will be the pride of Mobile. It has been remarked of Messrs. McDonald, March & Co., that they never lose a contract which they have an opportunity of bidding for, they having filled orders even from Illinois, having thus come in competition with the largest Northern marble yards. Among the many objects of beauty and interest which one finds at the Mobile Marble Works is one which all true men will soon gaze upon with admiration and pride. We refer to the shaft and soldier which are to surround the monument of the Confederate dead in Magnolia Cemetery. All of this monument is now completed with the exception of the "Soldier at Rest," and on this excellent piece of stonemasonry, Mr. D. McDonald is daily at work, in order that it may be finished in time for Decoration Day. And what Mobilian will not be more proud when he looks upon this monument, and thinks that it was wrought by one of Mobile's truest sons.—Mobile Register.

A CAPITAL NUMBER.—The Southern Cultivator for March has a full and varied table of contents. In addition to editorials, interesting answers to inquiries, and original articles from correspondents, it contains "Prof. White's Analysis of Different Parts of the Cotton Plant," his "Analysis of Different Fertilizers," and copious extracts from "Dr. Pendleton's Report of Experiments, at Experimental Plant of University of Georgia," besides practical articles on the varied topics connected with the farm and garden. Terms, \$2.00 a year. Address W. L. Jones, Athens, Ga.

The March number of Wood's House- hold Magazine is a capital one. It opens with an interesting story entitled, "The Guiding Hand," by Mrs. H. G. Rowe; following this Joseph Sander gives his "Experiences in the City," an article which for its simple truth and youth of the hand should read to their profit; "My Prayer" is not a religious sketch, as one would suppose from the title, but is a most touching story told in the sincere manner and rough speech of a railroad hand. "The Weekly Diabolical," by Karl Kase, aims a sharp and timely blow at sensational literature.—"The Kaiser Frederick" is one of Mary Harwell's entertaining stories. In the installment of "Misery Jippean," H. V. Osborne raps the knuckles of the fashionable clergyman, and buries "Penny Post" from sight. There are several other articles of merit, and some choice poetry. The Magazine contains fine illustrations, including a fine design for a Country School-House. Terms only one dollar a year—with chronic Yawnts one dollar and a half. Subscriptions may begin with any number.—Address, Wood's Household Magazine, Newburgh, N. Y.

It is rumored that Superintendent Albert Fink, of the Louisville & Nashville & Great Southern Railroad has obtained control of the Mobile & Montgomery and Pensacola & Louisville railroad. This gives him control from Louisville to Pensacola.

IMITATING THE WHITE MAN.—Augusta, Ga., March 8.—Two negroes, Peter Blair and Messrs Sullivan, had some angry words, during which Blair told Sullivan he was no gentleman. The latter demanded an apology or satisfaction with shot guns or pistols. Blair replied he had no apology to make, but accepted the challenge, naming the time, place and weapons. The parties met at the Sand Bar early this morning, at 7 o'clock, accompanied by their seconds, two negroes, named Ralph Knight and William Armstrong; the ground stepped off, and Col's five shooters played in the hands of the principals. Knight gave the word of command; he said, "Peter, are you ready?" Peter said "yes." "Moses, are you ready?" Moses replied "yes." They then commenced shooting, and both parties fired away until the last barrel was discharged; the pistols were reloaded, the principals resumed their positions, the words of command were repeated, and firing recommenced and continued until Blair fell to the ground shot through both legs. The parties returned to the city immediately. Sullivan fought at the same place last year, and Blair fought, another negro near Savannah some time ago.

The Ozark Standard says that the lawsuits between A. M. Tally and Dr. Frederick Tally's heirs long-standing, have been settled by compromise.

HARRIED.

State of Alabama, Butler County.

Court of Probate, 12th February, 1871.

THIS day came J. A. Decham, administrator of the estate of John Decham, deceased, and filed her petition in writing under oath, praying for an order to sell certain real estate belonging to the deceased, to pay debts. It is ordered that the 20th day of March next, 1871, be set to hear said application, and ordered that notice of this application, and the day set to hear the same, be given by publication for three successive weeks in the Greenville Advocate, a newspaper published in the county of Butler, Alabama, notifying the heirs at law of the deceased to be heard before a court of Probate to be held on the 20th day of March next, 1871, to show cause against said application.

GREENVILLE ADVOCATE.

Horses—Diseases of the Eye.

The horse is subject to all the diseases of the eye to which man is subject. Do not neglect the beginning of disease. Many fatal mistakes are made just here. Your horse is subject to have watery eyes. The conjunctiva (the natural membrane covering the lids and eye ball) looks red and inflamed. You think nothing of that, but use him, drive him in a glaring sunlight, in a sharp wind, in dust, or in a storm. This red and watery eye may be the beginning of a serious inflammation of the conjunctiva, or worse yet, of an inflammation of the iris, and other coats of the eye, which may result in your having a blind horse. Fully eight-tenths of the blind horses, are blind because of the neglect and abuse to which they are subjected. Neglect because of failure to see and care for the incipient stages of disease—abuse, by driving or otherwise using him, when he should be stabling in his stall, out of the glare of the sunlight, and out of the flying dust.

The following rules should govern you in the treatment of a simple catarrhal inflammation of the eye, and this is by far its most common disease. 1st. Let the horse stand quietly in his stable—in a shaded stable if the disease is severe. 2nd. In acute cases let his food be light, and of a laxative nature, bran-mashes, &c. If hay is fed, do not feed it from a rack above the horse's head, as hay seed, dust, and other irritations will unavoidably get into the eye, while he feeds therefrom. 3d. As to medicine, the use of astringent, stimulating, and sedative lotions are to be recommended, as follows: Recipe—Borax, 3 scruples; Camphor, 4 oz. This is an excellent wash, to be used in very mild cases. To be applied freely three or four times a day.

Sulphate of zinc, 12 scruples; alum, 1 scruple; Rain-water, 4 oz., mix. This is especially useful after the inflammation has progressed for a few days, and if it is severe, it is to be used freely three or four times a day. If there is ulceration of the cornea, (the cornea is that part which covers the colored portion of the eye), you should drop in the eye twice or three times a solution of atropine, as follows: Atropine, 6 grains; Rain water, 1 oz., mix. This keeps the pupils dilated, relieves pain due to tension from inflammation, and will be likely to preserve some degree of sight should the cornea become clouded (opaque) or the iris become involved in the inflammation and attached to other portions of the eye. The solutions can be best applied by means of a small glass or rubber syringe. Opening the lids with the thumb and finger, and injecting the wash under the lids, taking care not to bruise the eye-ball with a point of the syringe.

By following the simple rules above given, nine-tenths of your horses will recover from inflammation of the eye.—*Colman's Rural World.*

TO THE WEST! TO THE WEST!

Before making your arrangements to follow the advice of the "thousands who have already gone," it would be well to consider what line has been made to make the journey to you "Homes in the West" as pleasant and as free from danger as human skill and foresight can accomplish.

By consolidation and construction a road has been put into operation on the shortest possible line from Nashville, Tenn., to St. Louis, "the great city of the West." This line, the "St. Louis & Southern Railway," has, during the past year, earned an enviable reputation by its smooth track, prompt time, and connections, and the magnificence of its passenger equipment. Its trains are made up of new and commodious day cars, provided with the celebrated Miller coupler and platform, and the Westinghouse air-brake.

It is positively the only line running Pullman Palace Drawing Room Sleeping Cars through without change from Nashville to St. Louis. No other line pretends to offer such advantages, either in distance, time, or equipment. Why, then, journey by circuitous routes? Do not be induced to purchase tickets to St. Louis or the West by any other line, remembering that

THE "ST. LOUIS & SOUTHERN" IS THE SHORTEST, QUICKEST, NEAREST, AND ONLY line under one management from Nashville to St. Louis, and is from 60 to 200 miles the shortest to St. Louis, Kansas City, Omaha, Denver, California, Texas, and all western points. It is also the "Chicago Shortest Line," via Evansville. You can secure the cheapest rates for yourself and your movable or application, in person or by letter, to C. B. BARNETT, Southern Passenger Agent, Postoffice Box 242, Chattanooga, Tenn., or to the undersigned.

The Board of Trustees of the Greenville Collegiate Institute, having children of their own to educate and wishing them to be well and thoroughly trained, and being convinced of the eligibility of Greenville as a location for a first-class college, both on account of the localities of the site and the complete retirement from all influences subversive of good discipline, determined more than six months ago, to establish, under the auspices of the M. E. Church South, such an institution. Having consulted and corresponded with teachers all over the country having employed a Principal and other members of a faculty, and having erected temporary buildings and put under way the erection of a permanent edifice, they are determined to make a beginning on the

15th of September, and make the first year's school operations a nucleus for future work.

The temporary buildings are furnished throughout with DESK AND SEAT, manufactured by the Excelsior Company in Cincinnati.

The teachers are all *started*, and have nothing to engage their attention besides their duties to the mental and moral instruction of their pupils. They are employed for their competency to instruct, regardless of expense.

The first annual session of this school, will begin on MONDAY THE 15th OF SEPTEMBER, 1873, and continue forty weeks.

The course of study will embrace all of the principal branches of an English and classical education. Both Male and Female Pupils will be received. Separate Study Halls have been provided for their accommodation.

Rates of Tuition. The rates are \$20.00, \$30.00, \$40.00, and \$50.00 per scholastic year, according to grade.

Made on Piano, \$15.00 per term, including use of instrument.

Incidental Fee, \$2.00.

Payments of Tuition must be made in monthly installments.

A just deduction will be made for those who wish to make one payment for the entire term.

No deduction will be made for absence, unless caused by sickness rendering a withdrawal from school necessary.

Board can be had in good families at \$15.00 per month.

Dexter's Celebrated Whiskey.

OUR WHISKY, which has been favorably known in the South for Forty Years, is for sale to the Trade by our Agents

HOLT, MURRAY & CO., Mobile, Ala.

Orders addressed to them for FIVE BARRELS will receive prompt attention, if accompanied by a remittance or satisfactory city reference.

Our brand is now running into the hands of the public, because our old brand, which was painted, was extensively counterfeited during the time the old law was in operation, when for nearly twenty years our works were not in operation.

Much worthless stuff has been palmed off on the public as our Whisky, doing us much injury. We decline to fill orders addressed to us. Our attention is exclusively given to manufacture and the supply of our various Agents. An experience of over forty years proving this to be the cheapest and most satisfactory plan.
