In his wagon are arranged six racks, containing quart and pint bottles filled with pure, fresh milk, well measured. The bottles are delivered as required. State Grange Patrons of Husbandry. At a recent meeting of the State Grange of Missouri, the following resolutions were reported by the committee and adopted.

1. That we fully endorse and approve the principles of the National Grange at St. Louis.

2. That as cultivators of the soil we have been long governed and controlled by the great moneyed power of the land, and by rings which are against us simply because we have been ignorant of our own strength in our defense, and have wasted it warring with each other.

3. That as retrenchment and reform is our motto, our patrons we should begin at home, and that we, as we have a right to, that our legislators and rulers shall be economical in the expenditure of the public money, and not be prodigal in expenditure of our private means; while we condemn extravagance of public officials and complaints of wrong inflicted upon us by those whom we have entrusted with power, let us not still further wrong ourselves and families by living above our means, and involving ourselves in debt, thus sacrificing peace, comfort and independence at the shrine of fashion and show.

4. That we invite the hearty approval and co-operation of the sisters of our order in our reformatory movement; that woman's true position is God-given, and she should not be degraded by the frivolous and dissipated customs of the world.

5. That in republican government all power is vested in the hands of the people, and in ours a majority of people belong to the poor man, and that the power and strength of these classes have been used by a less numerous and more corrupt class for the advancement of their own selfish purposes.

6. That although ours is not a political organization, and especially ignores all party or partisan questions, yet we call upon our members to use their influence and vote as legislators to the support of more than one hundred thousand patrons of Missouri, to economize the resources of the government, and to stop currents of extravagance which have borne us to the very verge of bankruptcy and ruin.

2. That as cultivators of the soil we have been long governed and controlled by the great moneyed power of the land, and by rings which are against us simply because we have been ignorant of our own strength in our defense, and have wasted it warring with each other.

3. That as retrenchment and reform is our motto, our patrons we should begin at home, and that we, as we have a right to, that our legislators and rulers shall be economical in the expenditure of the public money, and not be prodigal in expenditure of our private means; while we condemn extravagance of public officials and complaints of wrong inflicted upon us by those whom we have entrusted with power, let us not still further wrong ourselves and families by living above our means, and involving ourselves in debt, thus sacrificing peace, comfort and independence at the shrine of fashion and show.

4. That we invite the hearty approval and co-operation of the sisters of our order in our reformatory movement; that woman's true position is God-given, and she should not be degraded by the frivolous and dissipated customs of the world.

5. That in republican government all power is vested in the hands of the people, and in ours a majority of people belong to the poor man, and that the power and strength of these classes have been used by a less numerous and more corrupt class for the advancement of their own selfish purposes.

6. That although ours is not a political organization, and especially ignores all party or partisan questions, yet we call upon our members to use their influence and vote as legislators to the support of more than one hundred thousand patrons of Missouri, to economize the resources of the government, and to stop currents of extravagance which have borne us to the very verge of bankruptcy and ruin.

GEN SANTA ANNA arrived at Havana, on the 12th, enroute for Mexico. He returns under the Laredo's proclamation of amnesty. He proposes to take no part in Mexican politics.

The daughter of ex-Senator Ross of Kansas is one of the rising politicians of the state.

The result of the late elections in Great Britain was the overthrow of the Gladstone ministry, and the recall of Disraeli to the premiership.

The question of dividing up the State of Texas is receiving a new impetus, and should the thing transpire, what fine pickings there will be for another grand array of carpet-bag vamps.

The largest Grange reported in Wisconsin is at Evansville, Rock county, having a membership of ninety-six men and fifty two women.

The United States mint is doing a heavy business in the way of manufacturing coin for other governments. Not less than \$1,500,000 have been thus made up to the last accounts.

A telegram from New Orleans says the total appropriations this year of the Louisiana Legislature about adjourning are \$1,500,000, against \$3,700,000 in 1872 and \$5,800,000 in 1871. This statement is exhibited in Washington for the purpose of showing a reform in the management of the State finances.

The testimony of witnesses before the Congressional investigating committee in the case of Durel, of La., has brought to light some dirty disclosures in regard to the judicial reign of that worthy in the unhappy State, and which brand him at once as a great scoundrel, and the evidence, since, of Mrs. Gen. Gaines in regard to the consideration which he demanded for sitting as Judge in her cases, in no manner has a tendency to mitigate his dirty and infamous record.

There is a rumor that Governor Caldwell, of North Carolina, will call a special session of the Legislature to consider the State debt. The manner in which ignorant legislators and dishonest politicians piled up the debt of the State is a lesson which no people wishing to be free can easily forget; but to provide against some of the evil effects of this indebtedness is a necessity for the future prosperity of the State.

Here is a suggestion which every Judge throughout the land should not only take into consideration, but act upon. The New York Tribune, commenting upon the language used Lord Chief Justice Cockburn in summing up the Tichborne case says: "No lawyer has a license to blast a good character for the sake of his client, no honest, self-respecting lawyer will try to do it; and our judges might very properly consider whether it is not their duty to interfere vigorously to protect honest witnesses from the violence to which certain notorious counsellors subject them."

While the whiskey war is being waged in Greenville Tenn., and many saloon keepers have succumbed to its fury, the ladies have found a tartar in the person of Mrs. Ward, who also sells the ardent and who, secure in her entrenchments, defies the whole crowd. At last accounts she was still holding out, and the women are now conducting the siege in regular military style, having erected tents in front of the saloon of the defiant daughter of "Old Ireland" and how it will end, remains to be seen.

The Suffering Poor.
The New York Sun says: Not many months ago, civilized nations were horrified at the story of famine and cannibalism in Persia, and disgusted at the cool indifference of the Shah, who, while his subjects were starving, went out shooting hares with an army. Only a few days ago, a poor woman with six children, in New Jersey, crazed by the want of food, was about to kill one, as she declared, for the nourishment of the rest, when her condition was discovered and her wants relieved. This is no exceptional case of suffering. Thousands of men, women, and children are without needed food and clothing, and but for the fact that kind Providence has tempered the harsh north wind, the deaths from want and cold would have been many.

The New Governor of Texas.
A gentleman from Rose Hill, Amite county, Miss., informs us that in 1869 he called at the office of Judge Coke (the recently elected Governor of Texas) in Waco, on business, and while there a widow lady came to see him, and stated that she was ready and wished to pay a thousand dollar note, with interest due, which he held against her husband, who was killed in one of the battles in Virginia. Judge Coke refused to receive the money, and made a present of it to her. The lady's husband owned a little arm near Waco, and was an officer in the Confederate army, perhaps under Judge Coke, who commanded a brigade or division. This kind act is characteristic of the new Governor of Texas, who is a talented, high-minded, and generous gentleman, and deservedly popular in his native South.—N. O. Picayune.

The New York World says: "That Moribund party, the Democracy, continues to surprise Republican journals, especially in the states which have been wrested from their control. Says the Milwaukee Sentinel: 'The enemy is not one to be disregarded. There will be no walking over the course as there has been in times past. The struggle at the next contest will be a hard one. The Democrats will leave no stone unturned to insure success, and the Republicans cannot afford to leave a single point unguarded.'"

We want to realize the fact that the Democratic party is not dead yet, but is girding up its loins for a hard struggle, and prepare ourselves for it."

Of all the inventions of the present day, probably none have created more astonishment than the London watch. The idea of making a Watch for the small sum of One Dollar, seems an impossibility, but it has at length been accomplished, and a perfect time indicator is produced. Besides this, it comprises a compass and Sun Dial, without extra cost. It is just the thing for the pocket of every traveler, trader, farmer, boy, and everybody desiring a reliable time-keeper. It is elegantly got up in a case of gold metal, which is an extra. Infusion of gold, nasal watch size, glass crystal, steel and metallic works, and warranted to denote correct time, and keep in order—its fairly used for two years. Nothing like it.

This perfect triumph of mechanism will be sent in a neat case, post paid to any address, for One Dollar, or three for two dollars, by the sole Agents for West and South, R. A. LAVIGNE & CO., Louisville, Ky.

Pay Cash

For Your

Drugs!

That very last year brought many to buy drugs from us. We wonder what it would take to bring them all up to pay for what they bought? A young gent said the other day that Hoffman & Co. had been making him present all through the year, and he thought, as Christmas had come, that he ought to make them one. (He meant pay his account.)

Reader, have you any thoughts like this?

If you have not paid your accounts to date, you ought to have them. But cotton is too low; you cannot afford to sell at present prices, and you won't.

If your debts are paid, it is nobody's business when you sell. If they are not, you are speculating on other men's money without their consent.

But as everybody does not see it thus—we have sent away our Book-keeper, and intend to sell Drugs for cash, until we get money enough to hire another one.

Open an oyster, retain the liquor in it for a few hours, and if viewed through a microscope, it will be found to contain multitudes of small oysters, covered with a green slimy covering, and from 1/100 to 1/200 of which extend to one inch. Besides these young oysters, the liquor contains a variety of animalcules, and is also infested with a species of worms. Sometimes the liquor resembles a bluish dirt about the size of a pea, and is very heartily luminous in a dark room.

between the owners of the commodities. Add to this the annual expenditure in the city for old boots, chamber crockery, paper weights, bootjacks and such other articles as may be made readily utilised of moonlight nights and it will occur to the most prejudiced friend of the dog that he is an animal wherein retrenchment could be practised to advantage in these economic days. Capitalized, our dogs represent a waste of \$80,000,000, and invested at compound interest, one year of the aggregate worthlessness would pay the national debt before 1900.

HAT BURIED TREASURE.—A San Francisco paper says: "The usually quiet town of Truckee has been considerably excited of late over the organization of a company to search for diamonds and gold long since buried on the coast of Florida. It is said that the company have a cash capital of a little more than \$100,000, and nearly all of the solid men of the town are said to have taken stock.
