the human race, none is entitled to higher con-

The services at St. John's Episcopal Church this morning will be appropriate to the day—Trinity Sunday. Rev. H. Stringfellow will officiate, at the usual hours.

A devotional meeting will be held under the auspices of the "Committee on Union effort among Christians," in the Methodist Episcopal Church on Court street, at 5 p. m. this day. All interested are invited to be present.

The Hebrew Ladies are determined to make their Fair a success. They have labored earnestly and zealously in the good cause, and it now remains with the people to reward their toil. The tickets of admission are only 25 cents.

The train on the South & North Alabama road will leave this morning at 8:30 instead of 9:45 as heretofore—arriving at Louisville at 5:45 a. m. next morning, and at Cincinnati at 9:15 a. m. This is six hundred miles in twenty-four hours and forty-five minutes. How is this for fast time?

There was an exhibition at Titaworth & Scott's yesterday, a bunch of rust proof coats, which was raised by Watson Walker of Shorter's station, on the Western road. It measured five and a half feet in height, and was heavily fringed. Mr. Walker has some 400 acres, and expects to save over 10,000 bushels.

Mr. J. C. Worthman, of Mobile, an ex-convict of the right stamp, has invented and patented a new brake for passenger and freight trains which will stop a train of cars going at any rate of speed in one hundred feet. Mr. Worthman, who is now in the city, submitted his new invention to a test yesterday on the M. & M. Railroad with results satisfactory to the Railroad men who witnessed it. The invention may be briefly described as follows:

An endless screw on the car axle operates a continuous cog-wheel around the shaft of which winds a chain which applies the brake. The revolving axle runs the screw-threads through the cogs. This carries the cog wheel (and its shaft) around with gradual but almost irresistible force. As the shaft turns it winds up the chain—in the same manner that the old hand brake works. But the difference is this that whereas in the old hand brake the force exerted by one man or two was all that could be applied in the whole momentum of the train is the force brought into requisition. Therefore the more rapidly the train may be running just that much more rapidly and resistively will the brake be applied. But after the maximum pressure has been obtained an eccentric on the axle unships the cog and prevents any cutting away of the periphery of the wheels. The brake may be applied by any passenger who can pull two pounds on a cord. We are pleased to see our Alabama mechanics entering the field of invention and successfully contesting the palm with the famous "Yankee Nation."

It has been the general impression that the negroes in Montgomery county, by reason of their superior numbers, were consulted in the management of the affairs of the Radical party in this county. If this has been the case heretofore it would seem that the practice has been deviated from, in one particular instance at least. The following extract is from the State Journal of yesterday:

A very pleasant informal meeting, consisting of Attorney General Gardner, Hon. E. B. Faber, T. O. Bingham, R. B. Mitchell, Col. J. A. Farden, S. G. Reid, Col. R. H. Knox, Geo. B. Randolph, James Fitzpatrick, and many others of the distinguished members of the Republican party, was held at the office of the Weekly Republican on Thursday evening. After a pleasant and satisfactory exchange of views relative to the ensuing State and county campaign, the meeting adjourned to meet again on Tuesday evening next, at 4 o'clock.

Not a negro is mentioned as having been present. If any were present they were thought to be of too little importance to be called by name and are covered up by the phrase "many others." Can it be that the handful of white men in this county who are struggling for the offices in the gift of the negroes, are trying to fix up a slate and leave the "man and brother" (who does the voting) out in the cold? Has it come to this that the white men who run the negroes are unwilling to take them into their councils? Sambo, take a back seat! You are good enough to vote, but not fit to consult with, or to put on the ticket. Call you this backing your friends? Where is Strobach and his supporters? Are any of them included in the above list or do those mentioned travel in a train different from his? It has been suggested that perhaps the participants in that meeting were protesting against the Civil Rights Bill. If so, to that extent they were doing right.

This is the last day of May—the last month of Spring. To-morrow the Summer comes in, and washball probably have some warm weather. But wasn't that a delightful shower yesterday?

The Prattville boys beat the Pastime Club, of this city, badly in the match game of base ball, at Prattville, last Friday. The score was: Prattville, 24; Pastime, 25. A return game will be played here next week.

Col. John W. A. Sanford will lecture before the Arlington next Friday evening on the "Life and Character of Mirabeau." Can't he exchange this theme for the "Life and Character of Baire"? The latter, we think, would be more interesting just now.

The Montgomery Protective Ice Company is selling ice at \$1.50 per hundred pounds, either at the depot or packed in cases for shipping and delivered at the Express office or trains. The daily sales of the Company now reach 9,000 pounds.

Next Tuesday evening the Hebrew ladies open their three days' fair, and they are going to succeed with it beyond all anticipation. Ladies who work so devotedly as they never go unrewarded in this sunny land of ours. Our warm-hearted, generous people will not permit it.

There will be an examination of the classes of the Public white Schools for the purpose of promotion to advanced classes on Tuesday, Wednesday and Thursday, June 23, 24 and 25. There will be no promotion except by examination. All interested in the cause of education and the success of our Public Schools are invited to be present. HENRY M. BUSH, Supt. City Schools.

The employees of the South & North Alabama Railroad and a few of their friends, had a very pleasant and agreeable picnic at Dealville, 19 miles North of this city, yesterday. About one hundred ladies and gentlemen attended—just enough to be "sociable" without being crowded. The day was spent in music, mirth and dancing. A bountiful collation spread about 2 p. m. called the revellers from labor to refreshment, and at 5:30 p. m. all hands started on the return trip, reaching the city at 6:10.

Keep your money at home. That is the very first and most important lesson in the "art of growing prosperous." A city which spends all that it receives as fast it is received will not get rich. Patronize home industries. Buy your ice of the Montgomery Protective Ice Company, and the money paid for ice remains at home. Now this company is selling 9,000 pounds per diem. That is worth \$135. In one month it will foot four thousand dollars! In six months \$2,000. Buy this ice at home, and you have your ice and your money. But buy it abroad, and you have your ice but your \$2,000 is gone! my31bt

The Montgomery German Shooting club, have made arrangements with Col. C. P. Ball, Superintendent of the Western R. R. Co., for a special train, which will leave this city on Tuesday next, at 6 a. m. for Selma. This train will not stop until it arrives at Selma. All the members of the Montgomery club have accepted the invitation of the Selma club and will attend. Persons desiring to accompany the train can do so by calling upon A. Roemer, Secretary of the club on Market street, or President, S. Schuessler. Price of tickets for the round trip, \$3.00. This will be a better opportunity than will occur again soon for our citizens to pay a flying visit to the Central city.

There are two things our citizens should do, in connection with the supply of water from the new water-works.

First those who reside in the vicinity of the Fire Plugs should club together and purchase from 50 to 100 feet of rubber hose, and a 1 1/2 inch pipe, and have the same kept in the nearest house to the plug. Then in case of fire, the hose could be attached and before the firemen arrive the fire be extinguished. By this it may cause large amounts of property may be saved. Second, all who have the water conducted to their houses should have what is called the street sprinkler attached to the conducting pipe either on the side-walk, or in the front yard, and purchase a piece of the small size rubber hose from Mr. C. E. James 43 Market street. Then the side-walk, and front yard, can be kept cool, and when the Lord of the Manor returns from his daily avocations he can enjoy comfort and rest.

We have received of the Harpers', through Mr. Joel White, bookseller and stationer, of this city the following new publications: Dr. Schewinfurth's "Heart of Africa" in 2 volumes, admirably printed and bound—the most handsomely gotten up muslin bound volumes that we ever saw. Thus far we have not read one word of the matter and therefore, because we know the Harpers' to be a tricky set, advise our readers to "look ere they leap" into the "Heart of Africa." Heaven knows that a book of that name is not far from home in Montgomery.

Dr. Dio Lewis' "Chats with young women." Dr. Dio is a useful nuisance. He says some fine things and administrators any amount of excellent advice, but the insufferable self-sufficiency of the vain and conceited coxcomb is such that the reader feels as much like kicking the Dr. as taking his advice. He seldom entertains a doubt on any subject. All of his opinions are given *cathestra*. He is a big man—especially to Dio Lewis. Also Lady Anna, a novel by Anthony Trollope, and Queen of Hearts by Wilkie Collins.

At a meeting of the Democrats and Conservatives of Prattville Precinct on Saturday, May 30th, the following delegates were elected to the County Convention to be held at Autaugaville on the 5th day of June 1874: S. P. Smith, M. E. Pratt, G. L. Smith, A. K. McWilliams, H. J. Livingston, T. W. Smith, J. A. Smith, T. W. Sadler, W. L. Ellis, Mac A. Smith, Z. Abney, T. C. Smith, H. F. DeBardelaben, E. M. Davis, James Burns, P. A. Hearn, J. A. Reynolds, Jas. A. Nummey, A. Y. Smith, M. L. Rogers, B. W. Rogers, W. H. Northington, Thos. Fallon, W. F. Smith, A. W. Ross, Dan'l Rawlinson, Peter Armstrong, N. M. Morris, Allen Smith and W. L. Rogers.

The Mobile Register refers to Judge Rice's reappearance in the role of Radical orator, and says:

The only importance we attach to the fact is that the erratic Judge invariably turns up on the losing side. In 1868 he swung his arms for Seymour, and the result was that Seymour was beaten. In 1870 he supported Smith and Bayler, and they were defeated. ADVY. In 1872 he roared on his toes and saw-sawed the air for Greeley, and poor Greeley lost the game. Now he enters the field on the immortal principles of the anti-Strobach platform. We repeat, as Houston in the Governor's chair.

The pastoral address of the Bishops of the Methodist Episcopal Church, South, was read in the Conference at Louisville last Monday. Upon dancing by church members and operatic music in the churches they expressed themselves as follows:

Worldly amusements are denounced by the Word of God and by that part of our general rules which forbids the taking of such diversions as cannot be taken in the name of the law of Jesus. This denunciation is explicit and comprehensive. Amongst those indulgences which cannot stand this solemn test is the modern dance, both in its private and public exhibitions, as utterly opposed to the genius of Christianity as taught by its Word. When perished in it is a justifiable ground of action for church authorities.

We do not hesitate to say that no music should be introduced into public worship that is not decidedly devoted to the service of God, and that the church should not be taking of such diversions as cannot be taken in the name of the law of Jesus. This denunciation is explicit and comprehensive. Amongst those indulgences which cannot stand this solemn test is the modern dance, both in its private and public exhibitions, as utterly opposed to the genius of Christianity as taught by its Word. When perished in it is a justifiable ground of action for church authorities.

SPECIAL NOTICE.—Having purchased the barber shop of my brother (the late Henry Henes), persons visiting the city, and the public generally desiring to get a good shave, or a hot, cold, or shower bath, can do so at the old stand, (under Offutt's Book store, corner Market and Court streets). Always in attendance a set of first class Barbers, who will do all in their power to give general satisfaction, to those who may favor me with their patronage. Thanking the public for past favors, and soliciting a continuance of the same.

I am, very Respectfully, JOHN HENES.

Important to the Slaveholder.

Persons with active brains and of a delicate organization should never be subjected to violent purgation or any other treatment calculated to prostrate them. Laxative, purgative, and intestinal rasping, are of doubtful expediency in any case, but they almost certainly result to the sensitive and fragile. What such persons need is stimulation, and the very best invigorant they can take is Hostetter's Stomach Bitters. To give depleted vitality to the nervous, debilitated, and almost certain death to the sensitive and fragile. BY TELEGRAPH.

Reported by the Associated Press for the Montgomery Daily Advertiser.

WASHINGTON, May 30.

Reports here, and reports from the North, show feeble decoration of soldiers' graves.

Probabilities.—For the South Atlantic States, rising cloudiness with light variable winds or calms, and falling or stationary barometer in the Western Gulf.

The Transportation Committee report back West's bill for Eads' jetties without committing themselves in its favor.

The conference Committee on the Finance bill held a long session to-day but adjourned till Monday, without coming to a conclusion on any point. They, however, discussed the situation including the President's position and several of them intimated it would be well to avoid if possible the passage of any bill which would be vetoed. One of the members of the committee expressed the opinion to a private citizen, that it did not seem probable any finance bill would be passed this session.

Sir Edward Thornton the British Minister here, held a long interview this morning with Col. Ralston, of Ga., upon the subject of land-locked navigation between the Mississippi river and harbors of the Southern Atlantic. The proposition is regarded by Sir Edward as of the highest importance to the people of Western Europe, especially so to England, and he will, while on an anticipated early visit to his home, show to the commercial representative men what may be expected in the way of lower priced bread from the completion of the great work.

NEW YORK, May 30.

The stage drivers strike has practically failed as the companies have succeeded in engaging new drivers. The old men, however, still preserve their firm attitude.

PHILADELPHIA, May 30.

Three thousand persons witnessed the race this afternoon between the pacer Copper Bottom and Goldsmith Maid, at Point Breeze Park, for a purse of \$2,500, to harness, best three in five. The betting was largely in favor of the Maid. The track was rather heavy, and the time made was not as good as expected. The Maid won in three straight heats. Time—2:23, 2:24, 2:25.

LOUISVILLE, May 30.
